Monthly Activity

10 Date: In the case of executed trades, the settlement date is shown; for other transactions, the date they were processed is shown.

11 Credit/Debit: The figures in this column represent how much the transaction increased or decreased your account's cash balance. Debit amounts are represented by a "-" and result in a reduction in the cash balance; a credit amount is an increase in the cash balance.

Summary

12 Income Summary: Shows the dividend and interest income earned in the period from the last statement date to the current statement date, and in the year-to-date.

Your Registered Accounts

13 Payment Summary (RRIF, LIF accounts): According to RRIF/LIF rules, you must withdraw funds from your account on a certain schedule. Payment Frequency indicates how often the payment is made (e.g. monthly). *Minimum Annual Payment* is the minimum annual amount the Canada Revenue Agency requires you to withdraw from your RRIF account. If our records show that you have elected to receive an annual amount that is greater than the specified minimum payment, that amount is displayed as the Elected Payment Amount. *Maximum Annual Payment* represents the maximum amount you can withdraw from your LIF account. *Taxes Withheld* represents the amount withdrawn from your RRIF/LIF and remitted as withholding taxes on your behalf.

14 Contribution Summary (RRSP accounts): Indicates the amounts you have contributed to your Personal and Spousal RRSPs for the first 60 days of the calendar year. These contributions are eligible for the previous calendar year, the remainder of the year (i.e. March to December), and the total year-to-date. The total contributions made since the RRSP account was opened are also listed, as well as the details of all transfers and withdrawals.

15 Change in Plan Assets (RRSP, LIRA, GRSP, DPSP accounts): This line indicates the change in the value of your plan assets since the day you opened your Registered Account, or since November 1, 1991, if your account was opened before that date. This change is calculated by comparing the current Net Asset Value to the sum of all the contributions and transfers into your account less any withdrawals. If you transferred your account from another financial institution, remember that your holdings may have been transferred at their original book value instead of at the current market value. In that case, the Change in Plan Assets figure captures your portfolio's performance at both ScotiaMcLeod and your previous institution.
