Please see the Fund's Investment Policy and an outline of Potential Risks to Investors later in this document for further details.

The investment in the Investment Shares of the Company, is only suitable for sophisticated investors who are able to bear the loss of a substantial portion or even all of the money they invest in the Funds, who understand the risks involved, and who believe that investment in the Funds is suitable for them based on their investment objectives and financial needs. Risk factors for an investor to consider are set out herein. Investors are therefore advised to seek independent professional advice on the implications of investing in the Funds.

Scotiabank Group

Scotiabank is a leading financial services provider in over 55 countries and Canada's most international bank. It is a Schedule I bank chartered under the Bank Act (Canada). Scotiabank's registered office is located at 1709 Hollis Street, Halifax, Nova Scotia, B3J 3B7 Canada and its executive offices are at Scotia Plaza, 44 King Street West, Toronto, Ontario, M5H 1H1 Canada. Scotiabank, together with its affiliates, officers, employees and agents (the “**Scotiabank Group**”), is engaged in wholesale and retail banking, lending, equity investing, financial and merger and acquisition advisory, underwriting, investment management, brokerage, trustee, custodial and similar activities on a world-wide basis. In addition, members of the Scotiabank Group, including the Fund Administrator and Scotia Investments Jamaica Limited, may manage other funds with objectives identical or similar to or overlapping those of the Fund. In the course of engaging in these activities, members of the Scotiabank Group may compete with the Fund or provide financing or other services to competitors of the Fund. Members of the Scotiabank Group will be under no obligation to refer any opportunity to the Fund, or refrain from investing in, or providing advice or services to others with respect to any such opportunity. Members of the Scotiabank Group have relationships with a significant number of clients and provide, and will in the future provide, advisory services to its clients.

In the course of considering the execution of any transaction on behalf of the Fund, the Fund Administrator and Scotia Investments Jamaica Limited, as applicable, may consider a client relationship and may choose not to execute any such transaction for the Fund on account of any such client relationship. In providing services to other clients, a member of the Scotiabank Group may recommend actions that would compete with or otherwise adversely affect the Fund. Members of the Scotiabank Group may from time to time come into the possession of information that could preclude the Fund Administrator and Scotia Investments Jamaica Limited from taking an action that would be in the best interest of the Fund. In addition, members of the Scotiabank Group have in the past sponsored or advised, and in the future may sponsor or advise, clients that may acquire interests in, provide financing to or otherwise deal with entities, the securities of which may be acquired, held or disposed of by the Fund. Furthermore, the Fund may from time to time acquire and hold assets, deposits and investments underwritten, promoted, issued, sold or distributed by a member of the Scotiabank Group.

In certain circumstances, there may be foreign exchange transactions where Scotiabank Group members act as counterparty. In such cases, the Scotiabank Group counterparty may take a reasonable spread or commission on these transactions.

Other transactions may occur where Scotiabank Group members broker or effect such transactions on reasonable, commercial-term basis where a spread or commission is taken by such other members.

It is intended that all such transactions would be undertaken on economic terms consistent with market pricing.

The Corporate Instruments generally do not restrict any actions taken by Scotiabank or its affiliates. Accordingly, no assurance can be given that potentially suitable investments of which Scotiabank may become aware will be offered to the Fund, nor is there any assurance that suitable investments will not be acquired by Scotiabank or other Scotiabank clients.

OBJECTIVES OF THE FUND

The Fund's investment objective is to provide a regular stream of income and modest capital gains by investing primarily in US dollar denominated fixed income securities issued or guaranteed by governments or government sponsored agencies of a country in the Caribbean Region, as well as money market and longer term fixed income securities issued by non-government issuers in accordance with the Investment Policy below. The Fund may also invest in other income generating securities, which may include dividend paying shares.

INVESTMENT POLICY

The Fund's investment policy is primarily intended to generate interest income as most of the Fund's assets are fixed income investments. The Fund may invest in the following assets, and at least 50% of the assets of the Fund will be invested in assets described at (i), (ii) and (iii) below.

- (i) US\$-denominated cash or deposits with licensed deposit-taking institutions. The Fund may also invest in reverse repurchase agreements backed by securities issued by sovereign states in the Caribbean region.
- (ii) US\$-denominated interest-bearing securities issued or guaranteed by the Government of Jamaica, the Bank of Jamaica or any entity owned or controlled by the Government of Jamaica.

- (iii) US\$-denominated interest bearing securities issued or guaranteed by any sovereign state or any entity owned or controlled by any such sovereign state, other than Jamaica that has an equal or superior credit rating to that of Jamaica, if rated by Moody's Investor Services or Standard & Poor's, or, if rated by CariCRIS, BBB on a Caribbean regional basis or A on a national basis.
- (iv) US\$-denominated fixed income securities issued by a company or other body lawfully authorised to issue such instruments, with an equal or superior credit rating to that of Jamaica if rated by Moody's Investor Services or Standard & Poor's, or, if rated by CariCRIS, BBB on a Caribbean regional basis or A on a national basis, or that are rated as equivalent or higher to the CariCRIS rating as determined by the Investment Advisor when considered in the context of the Caribbean region, and which meet such liquidity criteria as the Investment Advisor requires from time to time.
- (v) US\$-denominated short-term securities such as bills of exchange or promissory notes and or commercial paper issued by a company or other body lawfully authorised to issue such instruments, with an equal or superior credit rating to that of Jamaica if rated by Moody's Investor Services or Standard & Poor's, or, if rated by CariCRIS, BBB on a Caribbean regional basis or A on a national basis, or that are rated as equivalent or higher to the CariCRIS as determined by the Investment Advisor when considered in the context of the Caribbean region, and which meet such liquidity criteria as the Investment Advisor requires from time to time.

For yield-enhancement and liquidity purposes, the Fund may, from time to time, assume currency exposure by acquiring deposits, interest-bearing or other fixed income securities denominated in one or more currencies at sovereign states that are members of the Group of 20 (G20), from time to time other than the US\$, or in currencies issued by Caricom Member States, provided that such deposits and securities do not comprise in excess of 20% of the total assets of the Fund at time of purchase or acquisition.

The Fund may invest in, or otherwise enter into, hedging transactions to manage currency and interest rate risks, as determined by the Investment Advisor from time to time.

The Investment Advisor assesses credit risk from a national and regional perspective. Assets rated BBB on a Caribbean regional basis or A on a national basis by CariCRIS or equivalent by the Investment Advisor when considered in the context of the Caribbean region, may be treated as such by the Investment Advisor whether or not such assets are assigned a lower credit rating by a recognized rating agency or body by non-national or non-regional Caribbean standards.

For asset diversification purposes, with the exception of assets described at (i), (ii) and (iii) above, not more than ten percent (10%) of the assets of the Fund will be invested in individual instruments, or in instruments issued by the same issuer, at the time of purchase or acquisition.

For liquidity purposes, at the time of purchase, a minimum of 5% of assets held by the Fund will be invested in instruments which are repayable within three hundred and sixty five (365) days beginning on the date upon which they become part of the assets held by the Fund, or which are

made on terms on which repayment may be demanded within the period unconditionally and without penalty.

The Fund may also invest in other funds managed by the Fund Administrator, funds managed by any related party of the Fund Administrator, or managed by third party institutions. In such instance no management or other fee is payable by the Fund if payment thereof could reasonably be perceived as a duplication of fees payable by the Fund. No sales or redemption fees are paid or payable by the Fund when it buys or sells securities in a fund that is managed by the Fund Administrator or any of its affiliates.

BORROWING & USE OF LEVERAGE

The Fund may enter into margin borrowing and other forms of leveraging arrangements, to the extent determined by the Investment Advisor from time to time, to finance positions in the Fund's portfolio with a view to enhancing the earnings and returns of the Fund.

After giving effect to all borrowing transactions (including leveraging), the outstanding amount of all borrowings of the Fund will not exceed five per cent (5%), of the portfolio assets of the Fund taken at market value at the time of the borrowing.

The Fund may establish both long and short positions in securities to take advantage of anticipated price movements, and may enter into borrowing arrangements with respect to securities to facilitate the opening, maintaining and closing of such positions.

SUMMARY OF TAX POSITION

Barbados

The Fund is liable to income tax in Barbados on its taxable income at the rate of 1% to 5%. In addition, the Fund may incur withholding tax on income and proceeds of some of its investments, which may not be recoverable.

It is anticipated that a substantial part of the assets of the Fund will be comprised of interest-bearing securities issued by Caricom Member States, which have exempted such interest from income tax in the issuing state. Under the Caricom Tax Convention among Caricom Member States, interest paid by an issuer of debt who is tax resident in one Member State to a debt-holder who is tax resident in another Member State is only taxable in the Member State in which it arises, and therefore interest on such securities will not be subject to income tax in Barbados.

The Fund is not obliged to withhold tax on dividends to shareholders, or from amounts paid to shareholders on the redemption of Investment Shares.

Under the Caricom Tax Convention, dividends paid by the Fund to shareholders who are resident in another Caricom Member State which has incorporated the provisions of the Caricom Tax Convention into its domestic law, will only be liable to income tax in the Caricom Member State where the Fund is resident, and such liability is currently at the rate of zero per cent (0% in Barbados). Subscriptions and redemptions of Investment Shares are not subject to any duty or tax in Barbados.

US Tax Withholding and Reporting Under the Foreign Tax Compliance Act

Generally, the Foreign Account Tax Compliance Act provisions of the U.S. Hiring Incentives to Restore Employment Act of 2010 (or “**FATCA**”) impose a new reporting regime and, potentially, a 30% withholding tax with respect to (i) certain payments from sources within the United States (such as interest and dividends), (ii) gross proceeds from the sale or disposition of property that can produce U.S. source interest or dividends, (iii) “foreign passthru payments” made to certain non-U.S. financial institutions that do not comply with this new reporting regime, and (iv) payments to certain investors that do not provide identification information with respect to interests issued by a participating non-U.S. financial institution. FATCA came into effect in phases, beginning on July 1, 2014. The Fund will likely be classified as a foreign financial institution for these purposes. If an amount in respect of such withholding tax were to be deducted or withheld either from amounts due to the Fund or from payments made to shareholders, neither the Fund nor any other person would be required to pay additional amounts as a result of the deduction or withholding. In order to avoid withholding tax attributable to FATCA the Fund will likely need to provide the US Internal Revenue Service or other applicable taxing authority with certain information in respect of its shareholders and (where applicable) their beneficial owners. Shareholders who do not provide required information may also be subject to a 30% withholding tax. In addition, if a shareholder does not provide the information necessary for the Fund to comply with these requirements, the Fund may redeem the securities held by such shareholder.

Common Reporting Standard

In addition, to meet the objectives of the Organisation for Economic Co-operation and Development Common Reporting Standard (the “CRS”), the Fund is required to report to certain information (including residency details and financial information such as account balances) relating to investments held by unitholders or by the “controlling persons” of certain entities. The information would then be available for sharing with CRS reportable jurisdictions in which the Shareholder resides for tax purposes under the provision and safeguards of the Multilateral Convention on Mutual Administrative Assistance in Tax Matters, Multilateral Competent Authority Agreement or the relevant double taxation treaty.

General

The above summarizes the tax position of the Fund as at the date of this Offering Document, as it is understood by the Board of Directors. The Board of Directors does not guarantee the correctness of the above summary, and shall not be liable in the event that any aspect of it is or becomes incorrect, incomplete or otherwise inaccurate.

THE ABOVE SUMMARY IS NOT INTENDED TO BE A COMPLETE OR EXHAUSTIVE DESCRIPTION OF THE TAXATION IMPLICATIONS OF THE FUND AND INVESTMENT THEREIN. SHAREHOLDERS ARE ENCOURAGED TO SEEK TAX ADVICE FROM COMPETENT PROFESSIONALS BEFORE INVESTING IN THE FUND.

SHARE PRICE QUOTATIONS AND VALUATION

(a) NAVPS Quotations

The Fund’s portfolio of investments is carried out at fair value and is valued daily by the Fund Sub-Administrator by reference to the market prices prevailing as at 4:00 p.m. Eastern Time. The Net Asset Value of each Class of preferences share (“NAVPS”) is determined by the Fund Sub-Administrator accordingly.

The NAVPS is available from the Fund Administrator and is posted each day on the web at <https://jm.scotiabank.com/scotia-investments/fund-prices.html>. In addition, the NAVPS may be periodically published in the daily press in Jamaica, Barbados and Trinidad and Tobago.

(b) Calculation of Net Asset Value

The Net Asset Value of the Fund will be determined by the Fund Sub-Administrator as at 4:00 pm Eastern Time on each Valuation Date in accordance with the Corporate Instruments and in accordance with the valuation policies summarized below. The Net Asset Value represents the

market value of all assets less all liabilities of the Fund as at 4:00 p.m. Eastern Time on the Valuation Date.

The Net Asset Value of each Class will be determined by the Fund Sub-Administrator as at 4:00 p.m. Eastern Time on each Valuation Date in accordance with the Corporate Instruments and in accordance with the valuation policies summarised below. The NAV of each Class represents the market value of all assets of that Class less all liabilities attributed to it as at 4:00 p.m. Eastern Time on the Valuation Date.

(c) Valuation Policies

The NAVPS is calculated by taking on the relevant Valuation Date the Net Asset Value of the Class to which an Investment Share belongs dividing it by the number of Investment Shares outstanding or deemed to be outstanding in that Class, calculated to four decimal places.

Those investments of the Fund that are securities quoted on a regulated securities market or exchange, are generally valued for the purpose of arriving at the NAVPS at midway between quoted bid prices and offer prices as at the close of such market or exchange. However, where the Fund Sub-Administrator considers the prices quoted on some other market to be a fairer indicator of current market value for any security, it may use such prices. Securities, which are not quoted on any active market, will be valued in accordance with the Fund Administrator's customary valuation methodology for such securities. Under the Fund Administrator's customary valuation methodology, the market value of such securities will be calculated using the yield curves developed by reputable international and local securities broker-dealers and which are published on a daily basis. Further, the market value of securities which are not traded internationally will be determined using the yield curve developed or approved by the Jamaican Securities Dealers Association.

The prescribed weightings for the Fund, if any, in each Scotia Portfolio is determined by the Scotia Portfolio Manager and may be changed from time to time without notification to shareholders. In the event that any fund has deviated by 3.0% or more with respect of the assigned Scotia Portfolio, holdings of shares will be rebalanced to the prescribed fund weightings of the assigned Scotia Portfolio, resulting in an appropriate exchange of shares. Individual holdings of shares in funds are exchanged to restore the account to the assigned Scotia Portfolio's specifications. Commission charges, if applicable, may be charged on these transactions.

The minimum initial investment in a Scotia Portfolio is US\$5,000 or such other amounts or currencies as may be prescribed from time to time by the Board of Directors. Redemption proceeds, if unclaimed for three (3) years, may be forfeited by a resolution of the Board of Directors for the benefit of the Fund.

An ongoing investment of US\$5,000 is required in each shareholder account. If a redemption would give rise to a holding of less than US\$5,000 in a shareholder account, the amount of the redemption may (unless the Fund Administrator determines otherwise, in its discretion) be adjusted to include the entire remaining balance of the redeeming shareholder in such shareholder account.

Subject to the *Companies Act* and in accordance with the provisions of the Corporate Instruments, the Board of Directors, by giving a notice of redemption to a shareholder, may redeem all or any portion of the shareholders' Investment Shares at the then current NAVPS for any reason.

TRANSFER OF INVESTMENT SHARES

The transfer of Investment Shares is subject to the restrictions of transfer provisions in the Corporate Instruments of the Fund.

In connection with any transfer, the appropriate, fully executed and completed Instrument of Transfer shall be forwarded to the Fund Administrator through an authorised distributor of the Fund and a new account shall be established in the name of the transferee.

A Fund may decline to register a transfer of Shares:

- a) unless a fully and duly completed instrument of transfer is provided to the Fund Administrator together with any other evidence necessary to show the transferor's right to transfer,
- b) if the transferee and any person upon whose behalf the transferee would hold them are prohibited from investing in the Funds as described in "Distribution",

- c) if following registration, the holdings of the transferee (and the transferor if such be the case) would result in the Fund or Board of Directors giving a redemption notice redeeming all of the shareholders' investment shares (see "REDEMPTION OF INVESTMENT SHARES").

EXCHANGE OF INVESTMENT SHARES

A shareholder holding Investment Shares in the Fund may exchange such Investment Shares for shares of the same class and currency of certain other funds ("Select Funds") offered by the Fund Administrator or its affiliates under a separate prospectus. Upon exchange, the redemption of Investment Shares held by the shareholder will occur and the redemption proceeds will be applied to subscribe for Investment Shares in a Select Fund. Following the exchange of Investment Shares, the number of shares held by the investor will change since each class of shares of Select Funds involved has a different Net Asset Value. Following the exchange of Investment Shares into the shares of a Select Fund, the fees, terms and conditions set out in the prospectus for such Select Fund will apply to your acquisition, ownership and redemption of shares of a Select Fund. Administrative charges or sales fees may be charged on such transactions with Select Funds.

Please ask your authorised distributor for the list of Select Funds participating in this program and a copy of the prospectus of Select Funds you wish to acquire.

SUSPENSION OF VALUATION

The Board of Directors may at any time suspend the determination of the Net Asset Value in accordance with the Corporate Instruments, and no Investment Shares shall be issued or redeemed during any period in which the determination of the Net Asset Value is suspended. The provisions related to the suspension of the determination of the Net Asset Value and the suspension of the issuance and redemption of any class of Investment Shares in the Fund, are set out in Schedule IV, Part A of the Articles of Continuance of the Company and include the following:

A.6.1 *The directors may at any time authorise, after consultation with the Fund Administrator, the suspension of the determination of Net Asset Value and/or NAVPS, or for the whole or any part of any period:*

- (a) during which any securities market on which a material part of the Company's assets are listed is closed, other than for ordinary holidays and weekends, or during which dealings in them are restricted or suspended in a manner which undermines the determination of the fair value of those assets;*

FUND CAPITAL

The Fund offers Class A and Class I Preference Shares. Each Class of shares bears the expenses and liabilities directly attributable to that Class and a portion of the Fund's general administrative expenses of that Class allocated on the basis of total net assets or another equitable method. The Net Asset Value of each Class is calculated separately. However there is a risk that the expenses or liabilities of one Class may affect the Net Asset Value of the other Classes. For additional information, refer to "Cross Class Risk" in "Potential Risks to Investors" later in this document.

Investment Shares are issued in registered form and no certificates will be issued. The Fund will issue or will cause to be issued a confirmation, which will act as affirmation of subscription or redemption. The advantage of issuing Investment Shares in registered form over a certificate is that Investment Shares may be redeemed without the necessity of surrendering a certificate.

SHAREHOLDERS' RIGHTS

The rights of holders of Investment Shares will be governed by Barbados law, including the *Companies Act* and the Corporate Instruments. The rights of shareholders under Barbados law may differ from the rights of shareholders of companies incorporated in other jurisdictions, and in some cases may be incompatible with the laws of another jurisdiction.

The holders of Investment Shares will also have common-law rights related to the purchase and acquisition of the Investment Shares, and may be entitled to exercise a right of action (a) for the rescission of the purchase or (b) for damages, jointly and severally against Company or its agents. The enforcement of shareholder rights may be limited by reason of limitation of action or be subject to the requirement for payment of security for costs in respect of judicial proceedings commenced in Barbados.

In addition, shareholders are entitled to the benefit of certain rights under the *Mutual Funds Act* and the *Securities Act*.

THE ABOVE SUMMARY IS NOT INTENDED TO BE A COMPLETE OR EXHAUSTIVE DESCRIPTION OF THE RIGHTS AND REMEDIES OF THE HOLDERS OF INVESTMENT SHARES OF THE FUND. SHAREHOLDERS ARE ENCOURAGED TO SEEK INDEPENDENT LEGAL ADVICE AS TO YOUR LEGAL RIGHTS AS A SHAREHOLDER OF THE FUND BEFORE INVESTING IN THE FUND.

POTENTIAL RISKS TO SHAREHOLDERS

An investment in the Fund is at the sole risk of a shareholder. Changes to the market values of the securities owned by the Fund will be reflected in the NAVPS, which will therefore go up or down. The shareholders in the Fund accept market pricing risks of the securities held in the Fund, and the credit risks associated with the issuers of those securities. The Investment Advisor, as part of its diversification and to help mitigate the risks of the Fund, may employ various investment strategies including investing in securities which offer the best risk-reward ratio, while giving due consideration to variables such as market outlook, market liquidity and duration. The Investment Advisor may also establish long and short positions in securities to take advantage of anticipated price movements and any perceived arbitrage opportunities to benefit the shareholders.

The more pertinent risk factors are discussed below. This is not intended as an exhaustive or complete list of all risks associated with investment in the Fund.

EXTERNAL RISK FACTORS

Economic Conditions. The success of any investment activity is affected by general economic conditions, which may be affected by the level and volatility of interest rates and market prices. Unexpected volatility or illiquidity with regard to the securities which the Fund holds could impair the ability of the Fund to carry on business or cause it to incur losses.

Political and Regulatory Risks. The value of the assets of the Fund may be affected by uncertainties such as international political developments, changes in government policies, taxation, and restrictions on foreign investment on currency repatriation, currency fluctuations, and other developments in the laws and regulations of the countries in which the Fund invests its assets.

Credit Risk. Credit risk is the possibility that an issuer of a security held in the Fund defaulting on its obligations under that security and not repaying its obligations on time or at all. This would negatively impact the value of Investment Shares in the Fund. Bond prices are also sensitive to ratings, and changes in ratings, issued by credit rating agencies such as Moody's and Standard and Poor's. Credit ratings can also be more sharply affected by exogenous shocks to an economy. Such shocks typically reduce the ability of an issuer to repay obligations, thus making its debt less attractive in the market and affecting the market value of its outstanding tradable debt securities.

Cross Class Risk. The Fund may offer multiple Classes of shares. Although the Net Asset Value of each Class is calculated separately, there remains a risk that the expenses or liabilities of one Class of shares may affect the Net Asset Value of the other Classes, as in the event of the insolvency of the Fund. If one Class of shares is unable to cover its liabilities, the other Classes are legally responsible for covering the difference.

Foreign Exchange Risk. When the Fund buys an investment that is denominated in a currency other than U.S. dollars, changes in the exchange rate between that currency and the US dollar will affect the value of the Fund.

Foreign Investment Risk. Investments issued by foreign companies or governments can be riskier. Foreign countries can be affected by political, social, legal or diplomatic developments, including the imposition of currency and exchange controls. Some foreign markets can be less liquid, are less regulated, and are subject to different reporting practices and disclosure requirements.

Inflation Risk and Interest Rate Risk. Other factors that affect bond prices include inflation and interest rates. Inflation affects bond prices through its effect on interest rates. As inflation rises, nominal interest rates typically rise so as to maintain real interest rate levels. A higher level of interest rates in the financial markets debt previously issued at fixed interest rates become relatively less attractive, and thus tends to depress prices on existing fixed rate debt instruments. The market prices of the Fund's assets will therefore tend to be sensitive to movements of general interest rates in the US economy.

Market Risk. Since the prices of securities held in the Fund fluctuate in the market, the NAVPS could fall or rise. Prices fluctuate as a result of a variety of factors, including changes in credit ratings, changes to the actual or perceived economic, social or political climate of the nation or organization that issued the securities, movements in interest rates in the US and on other US\$ denominated debt instruments, and changes in international financial market conditions.

Repurchase, Reverse Repurchase and Securities Lending Risk From time to time, the Fund may enter into repurchase transactions and reverse repurchase transactions to the extent permitted by the securities regulatory authorities. In a repurchase transaction, the Fund sells a security at one price to a third party for cash and agrees to buy the same security back from the same party, again for cash, at a specified price on a designed future date. This is a way for the Fund to borrow short-term cash. In a reverse repurchase transaction, the Fund buys a security at one price from a third party and agrees to sell the same security back to the same party (usually at a higher price) later on. This is a way for the Fund to earn a profit (or interest) and for the other party to borrow some short-term cash.

In the case of a reverse repurchase transaction, the Fund could incur a loss if the value of the security sold or loaned has increased more than the value of the cash or collateral held. To minimize these risks:

- < The Fund requires the other party to the transaction to put up collateral. The value of the collateral must be at least the market value of the security sold or loaned plus some margin to be determined by the Investment Advisor or its authorised personnel.
- < The collateral held by the Fund may consist only of cash, qualified securities or securities that can be immediately converted into identical securities to those that are on loan. Collateral is checked and reset to ensure adequate coverage
- < The Fund cannot loan more than 50% of the total value of its assets; and
- < The Fund's total exposure to any one borrower will be based on credit limits determined by the Investment Advisor or its authorised personnel.

INTERNAL RISK FACTORS

Achievement of Objectives. There is no guarantee that the Fund will achieve its investment objectives.

Conflicts of Interest Instances may arise where the interests of the Fund Administrator and the Investment Advisor and its affiliates conflict with the interests of the Fund and its shareholders. Such conflicts include, but are not limited to, the fact that the Fund Administrator and the Investment Advisor may be engaged in other substantial activities apart from the activities described in this Offering Document and may therefore devote to the Fund only such time as they consider reasonably necessary. Furthermore, the Fund may from time to time invest in products promoted by, or assets owned by the Fund Administrator's affiliates.

Large Transaction Risk. Certain investors may make subscriptions or redemption for significant amounts of Investment Shares in the Fund. These transactions may impact the Fund's cash flow, and the Fund may be required to alter its investment portfolio by buying or selling a large portion of its investments. When a large investor subscribes for Investment Shares with cash, the Fund may temporarily have a higher than normal cash position until this cash can be invested. In the case of a large redemption, the Fund may be required to sell investments at unfavourable prices if it does not have enough cash on hand to fund the redemption. In order to mitigate the impact of this risk to shareholders, the Fund Administrator asks, but does not require, large investors to provide notice when significant redemptions are being contemplated, and otherwise reserves the right to pay the proceeds of large redemptions over a seven day period.

Where any of the securities in the Fund have been acquired by margin borrowing or leverage, these factors may result in margin calls to reduce those borrowings which, if not met by the Fund, may result in the sale of the securities in adverse market conditions.

As part of the risk management process, the Investment Advisor develops and monitors key risk metrics and trend analysis including, shareholder concentration, issuer and geographic concentration, value at risk, credit ratings, on periodic basis.

In order to mitigate the risks outlined above the Investment Advisor ensures that the assets of the Fund are invested in accordance with the limits outlined in the "INVESTMENT POLICY" above. These include diversification and concentration limits, minimum credit rating, minimum liquid asset and maximum borrowing limit.

DISTRIBUTIONS TO SHAREHOLDERS

The directors reserves the right to distribute a percentage of the income of the Fund, both accrued and received by way of dividends to shareholders, subject to any relevant factors which may mitigate against a distribution being made.

While it is the intention of The Board of Directors to distribute a percentage of income as noted herein, factors may occur that would result in no distribution to investors in any given calendar quarter. These distributions are not guaranteed and may change at any time at the discretion of the Board of Directors.

Any decision to declare and pay dividends in the future will be made at the discretion of the Board of Directors. Dividends may only be declared and paid out of assets legally available, In determining the amount of any future dividends, factors our Board of Directors may consider

include: (1) financial results; (2) available cash, as well as anticipated cash requirements (including debt servicing); (3) general economic and business conditions; (4) restrictions applicable under Barbados and other applicable laws, regulations and policies; and (5) any other factors that our Board of Directors may deem relevant. Therefore, there can be no assurance that the Company will declare or pay any dividends to holders of the Investment Shares, or as to the amount of any such dividends.

The Fund may distribute up to a maximum of 100% of its net earned income during the calendar quarter for which the distribution will be made, by the last business day of each calendar quarter. Dividends held will be automatically reinvested in additional Investment Shares of the Fund, unless a shareholder indicates a preference to the Fund Administrator or its agents for cash distributions. Distributions, if unclaimed for three (3) years, may be forfeited by a resolution of the Board of Directors for the benefit of the Fund.

Information about distributions paid to the shareholders of the Fund during the three most recently completed fiscal years of the Fund is available on our website at <https://jm.scotiabank.com/scotia-investments/scotia-funds/fixed-income-funds/scotia-caribbean-income-fund.html>.

PERFORMANCE DATA

The Fund's return will be calculated based on the percentage change in the Fund's NAVPS plus distributions of income over the relevant period, and may be quoted on an annual and year to date basis and for any other period.

AMENDMENT OF OFFERING MEMORANDUM AND CORPORATE INSTRUMENTS

The Articles of the Company may be amended only by a special resolution of the shareholders. Although the Investment Shares do not ordinarily entitle the holder to vote, in accordance with the *Companies Act*, certain fundamental constitutional changes require the approval of the holders of the Investment Shares. The fundamental constitutional changes which require the approval of each class of Investment Shares (voting separately as a class), is included in the Articles.

The Offering Memorandum and the By-Laws may be amended by resolution of the directors. Notwithstanding certain transactions require the prior consent of the holders of the Investment Shares, namely (a) the appointment of an Investment Advisor which is not Scotia Asset Management (Barbados) Inc., or a direct or indirect affiliate of Scotia Investment Jamaica Limited; and (b) the appointment of any administrator or custodian of the Company or the Company's assets which is a related party to the Investment Advisor of the Company.

POTENTIAL CONFLICTS OF INTEREST

The Investment Advisor - Scotia Investments Jamaica Limited holds all of the Management Shares, which represent the voting share capital in the Fund. The Fund has engaged the Fund Administrator and the Fund Administrator has engaged the services of Scotia Investments Jamaica Limited, to assist, subject to the Fund Administration Agreement, in carrying out the duties of the Strategic Advisor. The Fund Administrator is a wholly-owned subsidiary of Scotia Investments Jamaica Limited.

Scotia Investments Jamaica Limited carries on the business of trading in securities, including securities that would qualify for investment by the Fund, and it may from time to time as a principal enter into transactions in securities which are being purchased or sold for the account of the Fund. A similar situation could arise in respect of dealings in securities by the Fund Administrator or its affiliated companies. The Fund Administrator may also aggregate transactions entered into on behalf of the Fund with transactions entered into on behalf of itself or third parties, provided that the terms of such transactions are no less favourable to the Fund than would have been the case had the transactions not been so aggregated.

A majority of the directors are currently either directors or are senior officers employed by affiliates of the Fund Administrator. The directors of Scotia Investments Jamaica Limited and the Fund Administrator may from time to time act as directors, manager, investment advisor or distributor in relation to, or be otherwise involved in other funds or collective investment schemes which have similar investment objectives to those of the Fund.

It is therefore possible that any of them may, in the course of their responsibilities or business, have potential conflicts of interest with the Fund. In such event, each will at all times have regard to his obligations under the Corporate Instruments, the agreements between the Fund and affiliated companies of the Fund Administrator, and the obligation to act in the best interests of the shareholders of the Fund when undertaking any transactions where conflicts of interest may arise. Each will also endeavour to ensure that such conflicts are resolved fairly.

In summary, there is no prohibition on dealings in the assets of the Funds with entities related to the directors of the Fund, the Fund Administrator or its affiliated companies, provided that such transactions are carried out as if effected at arm's length on normal commercial terms.

Transactions will be regarded as being effected at arm's length on normal commercial terms if they are executed on terms which the Fund Administrator reasonably regards as conforming to normal commercial terms then prevailing.

TERMINATION OF FUND AND WINDING UP OF COMPANY

The Fund is intended to remain in existence indefinitely, and the holder of the Management Shares, Scotia Investments Jamaica Limited, has no present intention to wind up the Fund after any particular period of time.

The holder of the Management Shares has the power by special resolution to voluntarily wind up the Fund, and liquidate and dissolve the Company. The holder of the Management Shares may determine to reorganise or wind-up the Fund and/or liquidate and dissolve the Company at the direction of the FSC or any regulatory authority, or on revocation of its licence under the *Mutual Funds Act*.

The courts of Barbados, on the application of the FSC, have the authority to order the winding up of the Fund, and appoint a liquidator pursuant to the *Mutual Funds Act*. The courts of Barbados may order the winding up of the Fund, and the liquidation and dissolution of the Company in respect of proceedings commenced by a shareholder or other interested person.

On a winding up of the Fund, the assets of the Fund will be liquidated, its liabilities and the costs of the winding up settled, and any surplus remaining thereafter will be distributed on a *pari passu* to the holders of the Investment Shares in accordance with the liquidation entitlement as set out in the Corporate Instruments.
