For the past 68 years, the Princess Elizabeth Home for Handicapped Children (PEHHC) has helped provide opportunities to thousands of physically challenged children through the provision of surgical treatment, rehabilitation and education, so that they can lead fulfilling and productive lives.

Now, with a \$1 million donation from the Scotiabank Trinidad and Tobago Foundation towards its new Orthopaedic Wing and Operating Theatre, the PEHHC can support medical treatment for even more children in need, especially those from low-income households. We are truly happy to be a part of PEHHC's dedication to ensuring that every child in need of their services gets the support required, helping to shape their lives in a positive way.

Scotiabank Trinidad And Tobago Limited

Financial results for the period ended 30 April 2022

Scotiabank[®]

To Our Shareholders

The Directors are pleased to announce that Scotiabank Trinidad and Tobago Limited (The Group) realised income after tax of \$356 million for the six months ended 30 April 2022, an increase of \$52 million, or 17% over the prior year. For the second quarter ended 30 April 2022, The Group realized income after tax of \$171 million, an increase of \$12 million or 8% over the prior year.

This performance was driven by the momentum of a recovering economy supported by the easing of COVID-19 related restrictions, coupled with an increase in commodity prices arising from geopolitical factors. We remain mindful that the local economy, like the rest of the global environment, is also being impacted by undercurrents such as global supply chain issues and increasing price inflation.

The Group recorded an increase in Total Revenue of \$84 million or 10% year over year, driven by higher other income of \$105 million or 42%, as a result of increased activity across all business lines. Partially offsetting this increase in other income was a decline in net interest income of \$21 million or 3%, due mainly to margin compression and a minor decline in the loan portfolio during 2021.

Non-interest expense declined \$13 million or 4% as we continue to focus on operational cost efficiencies throughout the organisation. These efficiencies amidst rising inflation, allowed The Group to improve our productivity from 43% in 2021 to 38% in 2022.

Total assets increased by \$280 million or 1% over the prior year, but the most significant interest earning asset on our balance sheet, loans to customers, grew by \$628 million or 4% over the prior year and by over \$1 billion in the six months since 31 October 2021. This was achieved through competitive offerings being made in both retail and commercial segments aided by enhanced digital customer engagement initiatives. Our growth continues to be achieved in a prudent manner and we remain focused on maintaining high levels of credit quality. Our ratio of non-accrual loans to total loans remains less than 2% and we continue to see positive trends in customers' delinquency patterns as economic conditions improve.

The Group's focus on relationship banking extends beyond traditional products with our Insurance and Wealth business lines experiencing growth year over year. Policyholder Liabilities in our insurance segment increased by \$96 million or 6% year over year, demonstrating confidence by our customers in our ability to deliver quality products that offer long-term benefits. Assets under management have increased by \$269 million or 29%, through the expansion of our suite of Mutual Funds, which have been tailored to a diverse range of investment strategies to meet the needs of our customers.

The Group remains cautiously optimistic on future economic prospects for Trinidad and Tobago. Our core business lines continue to show growth and we have a strong and resilient capital base that will allow us to successfully navigate unforeseen shocks that may arise.

Based on these results, the Directors have approved a final dividend of 65 cents per share, to shareholders on the Register of Members as at 30th June 2022, payable by 15th July 2022.
