Scotiabank has been committed to giving to the community of St. Kitts and Nevis from its inception in 1983. As part of this ongoing pledge the Children's Home has received several donations in the past. The children are our future and we must take an interest in their development and well being.

On February 27th, 2006 a few staff members of Scotiabank officially made a donation in the form of a large glass wall unit, 27" color television and a double sofa bed. These items would be used to assist in the educational development and provide entertainment for the kids. Ersula Martin was very pleased with the token of appreciation donated by the bank and she thought that it was a very timely gesture.

The management and staff of Scotiabank are also involved in the Starfish Program. This initiative is geared towards total self-development for the children by allowing one on one interaction with an adopted child to assist with homework, discussions and group activities.

Scotiabank as one of St. Kitts and Nevis's leading financial institutions. Our energies are constantly focused on individual customers, employees, shareholders, and on building a strong community presence.
