- (i) Screen Rate Determination: Applicable
- (j) Reference Rate: 30 day Bankers’ Acceptance Rate in respect of the period from and including the Final Maturity Date to but excluding the Extended Due for Payment Date.

“**30 day Bankers’ Acceptance Rate**” means the average bid rate (expressed as an annual percentage rate) rounded to the nearest one-hundred thousandth of 1.00% (with .000005 per cent being rounded up) for Canadian dollar bankers’ acceptances with maturities of one month which appear on the Relevant Screen Page at the Relevant Time on the Interest Determination Date.

If the 30 day Bankers’ Acceptance Rate does not appear on the Relevant Screen Page or the Relevant Screen Page is not available on an Interest Determination Date or ceases to exist, the 30 day Bankers’ Acceptance Rate for such period will be determined using an Alternative CDOR Page as of an Alternative Time on such day. If no such Alternative CDOR Page is available on such day, the Calculation Agent shall request that the principal Toronto office of each of four major Canadian Schedule I chartered banks nominated by the Calculation Agent provide the Calculation Agent with its bid rate (expressed as a percentage rate per annum) for 30 day bankers’ acceptances in Canadian dollars for settlement on such Interest Determination Date and in an amount approximately equal to the Aggregate Principal Amount of the Covered Bonds then outstanding accepted by such banks as at the Relevant Time on such Interest

Determination Date. If two or more of such banks provide the Calculation Agent with such bid rates as requested, the Reference Rate for such Interest Determination Date shall be the arithmetic mean (rounded if necessary to the fifth decimal place, with 0.000005 being rounded upwards) of such offered quotations, as determined by the Calculation Agent. If fewer than two quotations are provided as requested, the Reference Rate for such Interest Determination Date shall be the arithmetic mean (rounded if necessary to the fifth decimal place, with 0.000005 rounded upwards) of the bid rates quoted by major banks in Toronto, selected by the Calculation Agent, for 30 day bankers' acceptances in Canadian dollars for settlement on such Interest Determination Date and in an amount approximately equal to the Aggregate Principal Amount of the Series CBL29 Covered Bonds accepted by those banks as at the Relevant Time on the Interest Determination Date, as determined by the Calculation Agent.

Notwithstanding the foregoing, if the Bank, a relevant regulatory supervisor or relevant administrator determines that the 30 day Bankers' Acceptance Rate has been permanently or indefinitely discontinued, the Bank, in its sole discretion, may appoint a calculation agent (which may be the Calculation Agent) (the "**Alternative Rate Calculation Agent**") to assist in determining an appropriate alternative rate and adjustments thereto, and the decisions of such Alternative Rate Calculation Agent shall be binding on the Bank, the Calculation Agent and the holders of the Covered Bonds. The Bank or the Alternative Rate Calculation Agent, as applicable, shall use, as a substitute for the 30 day Bankers' Acceptance Rate and for each future Interest Payment Date, the alternative reference rate selected or recommended by the central bank, reserve bank, monetary authority, relevant regulatory supervisor or any similar institution (including any committee or working group thereof), or identified through any other applicable regulatory or legislative action or guidance, that is consistent with accepted market practice for obligations such as the Covered Bonds (the "**Alternative Rate**"). As part of such substitution, the Bank or the Alternative Rate Calculation Agent after consultation with the Bank, as applicable, shall make such adjustments to the Alternative Rate and the spread thereon, as well as the business day convention, interest payment dates and related provisions and definitions, in each case that are consistent with accepted market practice or applicable regulatory or legislative action or guidance for the use of such Alternative Rate for obligations such as the Covered Bonds (collectively, "**Adjustments**"), provided, however, that (i) if the Bank determines that there is no clear accepted market practice or applicable

regulatory or legislative action or guidance for such Adjustments, the Bank shall appoint an Alternative Rate Calculation Agent to make such Adjustments as it determines appropriate for the Alternative Rate, and (ii) if the Bank or the Alternative Rate Calculation Agent after consultation with the Bank, as applicable, determines that there is no clear market consensus as to whether any rate has replaced the 30 day Bankers' Acceptance Rate in customary market usage, the 30 day Bankers' Acceptance Rate for such Interest Payment Date shall be the 30 day Bankers' Acceptance Rate for the immediately preceding Interest Payment Date, and the process set forth in this paragraph to determine an Alternative Rate shall be repeated for each subsequent Interest Payment Date until such time as an Alternative Rate is determined.

“Alternative CDOR Page” shall mean the display, designated as page “CDOR” on Bloomberg, or an equivalent service that displays average bid rates of interest for Canadian dollar bankers' acceptances having the applicable term.

“Alternative Time”, for any Alternative CDOR Page, shall mean the time of day at which such Alternative CDOR Page becomes available.
