Secondary Market:

A holder who sells a Note prior to the Maturity Date may receive sale proceeds that are less than the Principal Amount. If a holder sells a Note to the Agent within the first 180 days from the Issue Date, the holder will receive sale proceeds equal to the secondary market price for the Note as determined by the Agent minus any applicable Early Trading Charge.

Early Trading Charge:

During the first 180 days following the issuance of the Notes, an Early Trading Charge will apply to any secondary market sale of a Note through the Agent. The Early Trading Charge will be equal to a percentage of the Principal Amount of the Note, determined as follows:

If Sold Within	Early Trading Charge (% of Principal Amount)
0-90 days of Issue Date	1.00%
91-180 days of Issue Date	0.50%
Thereafter	Nil

A holder should be aware that any price for the Notes appearing on his or her monthly or quarterly investment account statement will be before the application of any applicable Early Trading Charge. A holder wishing to sell Notes prior to the Maturity Date should consult with his or her investment advisor as to whether an Early Trading Charge is payable and, if so, how much it will be.
