Governing Law:	The Province of Ontario and the federal laws of Canada applicable therein.
Attornment:	Courts of the Province of Ontario.
Agent:	Scotia Capital Inc. (“SCI”)
Calculation Agent:	SCI
Secondary Market:	SCI will endeavor to maintain a secondary market for the Notes under normal market conditions, but reserves the right not to do so at any time in the future in its sole and absolute discretion, without providing notice to noteholders. The secondary market price of the Notes will be dependent on a number of factors, in particular prevailing interest rates and the Extension Feature. A holder who sells a Note prior to the Initial Maturity Date (and if applicable, any Extended Maturity Date) may receive sale proceeds that are less than the Principal Amount.
US Selling Restrictions:	The Notes have not been and will not be registered under the United States Securities Act of 1933 (the “1933 Act”) and should not be offered or sold within the United States. SCI agrees that neither it, nor its affiliates(s), nor any persons acting on its behalf have engaged or will engage in any directed selling efforts (within the meaning of Regulation S of the 1933 Act) in the United States with respect to the Notes.
EU Selling Restrictions:	No prospectus (as defined in Directive 2003/71/EC (as amended, the “ Prospectus Directive ”)) will be prepared in connection with the Notes. Accordingly, the Notes may not be offered to the public in any member state of the European Economic Area (the “EEA”), and any purchaser of the Notes who subsequently sells any of the Notes in any EEA member state must do so only in accordance with the requirements of the Prospectus Directive, as implemented in that member state.

Additional Information to Investors about the Notes:

Investors in the Notes should be aware that they are subject to certain risk factors. Potential investors in the Notes are urged to consult their own legal, accounting and tax advisors in order to determine the consequences of an investment in the Notes and to make an independent evaluation of such investment. Specific risk factors include, but are not limited to:

Non-Standard Investments: The Notes have certain investment characteristics that differ from traditional fixed income securities. Specifically, the performance of the Notes will not track the same price movements as traditional interest rate products. An investor should reach a decision to invest in the Notes after carefully considering, with his or her advisors, the suitability of the Notes in light of his or her investment objectives and the information set out in the above terms of the offering. Neither the Bank nor SCI makes any recommendation as to whether the Notes are a suitable investment for any person.

Extension Feature: The Extension Feature of the Notes is unique. As a result of the Extension Feature of the Notes, the price movement of the Notes will be quite different from that of other notes, bonds, and similar debt instruments with the same credit risk and term to maturity. For example, if prevailing interest rates fall, the market price of the Notes may be limited to the price applicable to the then-existing Maturity Date. Investors are compensated for the uncertainty caused by the Extension Feature of the Notes by receiving a higher yield compared to other debt instruments with a similar credit risk and term to maturity.

The Bank is less likely to exercise its right to extend the Maturity Date of the Notes during periods of relatively low interest rates, or otherwise where it determines that its borrowing cost under the Note is, or might be, higher than from other available sources. The decision to extend (or not to extend) the Note will be made solely by the Bank and may occur at a point in time that is not advantageous to investors.

Suitability: An investment in the Notes may not be suitable for all investors. An investor should reach a decision to invest in the Notes after carefully considering the suitability of the Notes and his or her investment objectives. Neither the Bank nor SCI makes any recommendation as to the suitability of the Notes for an investor's investment purposes. Investors should consult with their investment advisor before making a decision regarding an investment in Notes.

Potential Conflicts of Interest:

The Bank and its affiliates may engage in activities and perform functions that could adversely impact the value of the Notes, the ability of the holder to resell their Notes or the amount or timing of receipt of payments under the Notes. Consequently, potential conflicts between the interests of holders and the Bank's interests may arise.

The COVID-19 virus may have an adverse impact on the Bank:

On 11 March 2020, the World Health Organization declared the outbreak of a strain of novel coronavirus disease, COVID-19, a global pandemic. Governments in affected areas have imposed a number of measures designed to contain the outbreak, including business closures, travel

restrictions, quarantines and cancellations of gatherings and events. The spread of COVID-19 has had disruptive effects in countries in which the Bank operates and the global economy more widely, as well as causing increased volatility and declines in financial markets. If the pandemic is prolonged, or further diseases emerge that give rise to similar effects, the adverse impact on the global economy could deepen and result in further declines in financial markets. A substantial amount of the Bank's business involves making loans or otherwise committing resources to specific companies, industries or countries. The COVID-19 pandemic's impact on such borrowers, industries and countries could have a material adverse effect on the Bank's financial results, businesses, financial condition or liquidity. The COVID-19 pandemic may also result in disruption to the Bank's key suppliers of goods and services and result in increased unavailability of staff adversely impacting the quality and continuity of service to customers and the reputation of the Bank. As a result the business, results of operations, corporate reputation and financial condition of the Bank could be adversely impacted for a substantial period of time.
