Maturity Date:	August 26, 2030 or if that day is not a Business Day the immediately succeeding Business Day, subject to being called by the Bank on a relevant Call Date pursuant to the terms of the Call Provision below.
Call Provision:	The Notes are redeemable at the option of the Bank, in whole, but not in part, on any Call Date upon notice by the Bank to CDS on or before the Call Notice Date, at an amount that will equal to the Principal Amount of the Notes, together with any accrued and unpaid interest to the applicable Call Date (the “Call Option”). If the Notes are called prior to the Maturity Date, a noteholder will lose the opportunity to continue to accrue and be paid interest on the Notes after such Call Date.
Call Notice Date:	Fifteen Business Days prior to the corresponding Call Date. Notwithstanding the foregoing, the redemption of the Notes pursuant to the Call Option will be subject to the prior approval of the Superintendent of Financial Institutions (Canada) (the

“Superintendent”) if such redemption would lead to a breach of the Bank’s Total Loss Absorbing Capacity (“TLAC”) requirements.

There is no certainty as to the term to maturity of the Notes after the first call Date because whether or not the Bank exercises the Call Option embedded in the Notes will be dependent on, among other things, future interest rates and market volatility. If the Bank does not exercise the Call Provision on any Call Date, the term of the Notes will be approximately 11 years.

An investor who holds a Note to a Call Date on which the Bank exercises the Call Option or the Maturity Date, as the case may be, will generally be required to include the full amount of the interest paid on the Note in computing income for the taxation year that includes such date, except to the extent that such interest has already been included in income for that or a preceding taxation year.</p>

Additional Information to Investors about the Notes:

Investors in the Notes should be aware that they are subject to certain risk factors. Potential investors in the Notes are urged to consult his or her own legal, accounting and tax advisors in order to determine the consequences of an investment in the Notes and to make an independent evaluation of such investment. Specific risk factors include, but are not limited to:

Non-Standard Investments: The Notes have certain investment characteristics that differ from traditional fixed income securities. Specifically, the performance of the Notes will not track the same price movements as traditional interest rate products. An investor should reach a decision to invest in the Notes after carefully considering, with his or her advisors, the suitability of the Notes in light of his or her investment objectives and the information set out in the above terms of the offering. Neither the Bank nor SCI makes any recommendation as to whether the Notes are a suitable investment for any person.

Call Provision: The Call Provision of the Notes is unique. As a result of the Call Provision of the Notes, the price movement of the Notes will be quite different from that of other notes, bonds, and similar debt instruments with the same credit risk and term to maturity. For example, if prevailing interest rates fall, the market price of the Notes may be limited to the price applicable to the Call Date. Investors are compensated for the uncertainty caused by the Call Option of the Notes by receiving a higher yield compared to other debt instruments with a similar credit risk and term to maturity.

The Bank is more likely to exercise its right to call the Notes during periods of relatively low interest rates, or otherwise where it determines that its borrowing cost under the Note is, or might be, higher than from other available sources. The decision to call (or not to call) the Note will be made solely by the Bank and may occur at a point in time that is not advantageous to investors.

Suitability: An investment in the Notes may not be suitable for all investors. An investor should reach a decision to invest in the Notes after carefully considering the suitability of the Notes and his or her investment objectives. Neither the Bank nor SCI makes any recommendation as to the suitability of the Notes for an investor's investment purposes. Investors should consult with their investment advisor before making a decision regarding an investment in Notes.

Potential Conflicts of Interest:

The Bank and its affiliates may engage in activities and perform functions that could adversely impact the value of the Notes, the ability of the holder to resell their Notes or the amount or timing of receipt of payments under the Notes. Consequently, potential conflicts between the interests of holders and the Bank's interests may arise.
