Settlement Date:	October 1, 2020
Maturity Date:	The Initial Maturity Date, subject to extension by the Bank to an Extended Maturity Date or the Final Maturity Date, as the case may be, pursuant to the Extension Feature below.
Initial Maturity Date:	October 1, 2021. The Notes are extendible at the option of the Bank on October 1, 2021 and every 6 months thereafter to the next following Extended Maturity Date or the Final Maturity Date, as applicable, at the Coupon Rate for the applicable Coupon Period set out below in respect of the relevant extension period, but in no event beyond the Final Maturity Date (the “Extension Feature”). If the applicable Maturity Date of the Notes is not a Business Day, the Principal Amount shall be paid on the next Business Day, without adjustment for period end dates.

¹ Subject to conversion under the bank recapitalization “bail-in” regime.

The Bank will be deemed to have exercised its option to extend the then applicable Maturity Date of the Notes to the next following Extended Maturity Date unless it provides notice in writing to CDS, not less than fifteen Business Days prior to the then applicable Maturity Date of the Notes, of its intention to redeem the Notes and not to extend the Maturity Date of the Notes.

In the event that the Bank gives notice to CDS of its intention not to extend the term of the Notes, the decision to give such notice will be subject to the prior approval of the Superintendent of Financial Institutions (Canada) (the "Superintendent") if such non-extension would lead to a breach of the Bank's Total Loss Absorbing Capacity ("TLAC") requirements.

There is no certainty as to the term to maturity of the Notes after October 1, 2021 because the Extension Feature embedded in the Notes will be dependent on future interest rates and market volatility. If extended to the Final Maturity Date the term of the Notes will be approximately 10 years.

Governing Law:	The Province of Ontario and the federal laws of Canada applicable therein.
Attornment:	Courts of the Province of Ontario.
Agent:	Scotia Capital Inc. (“SCI”)
Calculation Agent:	SCI
Secondary Market:	SCI, as a market maker, agrees to repurchase the Notes in whole at the holder’s request, at the market price determined by SCI in its sole discretion acting reasonably, and subject to the occurrence of any event, circumstance or cause beyond the reasonable control of SCI that has or may have an adverse effect on its ability to maintain a secondary market, as determined in its sole discretion. A holder of Notes who sells a Note to SCI prior to the Maturity Date may receive sales proceeds that are less than the Principal Amount of the Notes. The Notes will not be listed on any stock exchange.
US Selling Restrictions:	The Notes have not been and will not be registered under the United States Securities Act of 1933 (the “1933 Act”) and should not be offered or sold within the United States. Accordingly, the Notes may not be offered to the public in any member state of the European Economic Area (the “ EEA ”) or in the United Kingdom, and any purchaser of the Notes who subsequently sells any of the Notes in any EEA member state or in the United Kingdom must do so only in accordance with the requirements of the Prospectus Directive, as implemented in that member state.

Additional Information to Investors about the Notes:

Investors in the Notes should be aware that they are subject to certain risk factors. Potential investors in the Notes are urged to consult their own legal, accounting and tax advisors in order to determine the consequences of an investment in the Notes and to make an independent evaluation of such investment. Specific risk factors include, but are not limited to:

Non-Standard Investments: The Notes have certain investment characteristics that differ from traditional fixed income securities. Specifically, the performance of the Notes will not track the same price movements as traditional interest rate products. An investor should reach a decision to invest in the Notes after carefully considering, with his or her advisors, the suitability of the Notes in light of his or her investment objectives and the information set out in the above terms of the offering. Neither the Bank nor SCI makes any recommendation as to whether the Notes are a suitable investment for any person.

Extension Feature: The Extension Feature of the Notes is unique. As a result of the Extension Feature of the Notes, the price movement of the Notes will be quite different from that of other notes, bonds, and similar debt instruments with the same credit risk and term to maturity. For example, if prevailing interest rates fall, the market price of the Notes may be limited to the price applicable to the then existing Maturity Date. Investors are compensated for the uncertainty caused by the Extension Feature of the Notes by receiving a higher yield compared to other debt instruments with a similar credit risk and term to maturity.

The Bank is more likely to exercise its right to extend the Maturity Date of the Notes during periods of relatively low interest rates, or otherwise where it determines that its borrowing cost under the Notes is, or might be, higher than from other available sources. The decision to extend (or not to extend) the Notes will be made solely by the Bank and may occur at a point in time that is not advantageous to investors.

Suitability: An investment in the Notes may not be suitable for all investors. An investor should reach a decision to invest in the Notes after carefully considering the suitability of the Notes and his or her investment objectives. Neither the Bank nor SCI makes any recommendation as to the suitability of the Notes for an investor's investment purposes. Investors should consult with their investment advisor before making a decision regarding an investment in Notes.

Potential Conflicts of Interest:

The Bank and its affiliates may engage in activities and perform functions that could adversely impact the value of the Notes, the ability of the holder to resell their Notes or the amount or timing of receipt of payments under the Notes. Consequently, potential conflicts between the interests of holders and the Bank's interests may arise.

COVID-19 may have an adverse impact on the Bank:

On March 11, 2020, the World Health Organization declared COVID-19, a global pandemic. Governments and regulatory bodies in affected areas have imposed a number of measures designed to contain the outbreak, including government-mandated social distancing measures,

travel restrictions, quarantines and stay-at-home directives. The COVID-19 pandemic has resulted in a sharp decline in global economic growth as well as causing increased volatility, disruptions and declines in financial markets. The disruptive effects of the pandemic have contributed to economic slowdowns both domestically and globally, leading to lower GDP growth, and concerns about a prolonged Canadian or global recession. The depth and breadth of the impact of COVID-19 on the global economy and financial markets continues to evolve. If the COVID-19 pandemic is prolonged, or further diseases emerge that give rise to similar effects, the adverse impact on the global economy could deepen and result in further declines in global economic growth and financial markets. Accordingly, the full impact of the COVID-19 pandemic on the global economy and financial markets is uncertain and may have an adverse effect on the return on the Notes.

The COVID-19 pandemic has had disruptive effects in Canada and other countries and jurisdictions in which the Bank operates, has materially impacted and continues to materially impact the markets in which the Bank operates and has led to concerns about the sustainability of Canadian household indebtedness. A substantial amount of the Bank's business involves making loans or otherwise committing resources to specific companies, industries or countries. The impact of the COVID-19 pandemic on such borrowers, industries and countries could have significant adverse effects on the Bank's financial results, businesses, financial condition or liquidity, including as a result of the inability of borrowers to repay their loans to the Bank. The COVID-19 pandemic has and may continue to result in disruptions to the Bank's customers and the way in which the Bank conducts business, including the closure of certain branches, increased staff working off premises, and changes to operations due to higher volumes of client requests, as well as disruptions to key suppliers of the Bank's goods and services. As a result, the COVID-19 pandemic could adversely impact the quality and continuity of service to customers of the Bank, as well as, the business, results of operations, corporate reputation and financial condition of the Bank for a substantial period of time. Moreover, it remains uncertain how the macroeconomic environment, societal and business norms will be impacted following the COVID-19 pandemic. The post-COVID-19 environment may undergo unexpected developments or changes in financial markets, the fiscal, tax and regulatory environments, and consumer behavior which could adversely impact the Bank's operations, businesses, prospects, financial performance and financial condition.
