Trade Date:	November 19, 2020
Settlement Date:	November 30, 2020
Maturity Date:	November 30, 2030 or if that day is not a Business Day the immediately succeeding Business Day, subject to the Notes being called by the Bank on a relevant Call Date pursuant to the terms of the Call Option below.
Call Provision:	The Notes are redeemable at the option of the Bank, in whole, but not in part, on any Call Date upon notice by the Bank to CDS on or before the Call Notice Date, at an amount equal to the Principal Amount per Note, together with any accrued and unpaid interest to the applicable Call Date (the “Call Option”). If the applicable Call Date is not a Business Day, the Principal Amount per Note, together with any accrued and unpaid interest to the applicable Call Date, shall be paid on the immediately succeeding Business Day. If the Notes are called prior to the Maturity Date, a noteholder will lose the opportunity to continue to accrue and be paid interest on the Notes after such Call Date.

¹ Subject to conversion under the bank recapitalization “bail-in” regime.

Call Notice Date: The Bank will provide at least fifteen Business Days notice prior to the corresponding Call Date of the exercise of the Call Option. **Notwithstanding the foregoing, the redemption of the Notes pursuant to the Call Option will be subject to the prior approval of the Superintendent of Financial Institutions (Canada) (the “Superintendent”) if such redemption would lead to a breach of the Bank’s Total Loss Absorbing Capacity (“TLAC”) requirements.**

There is no certainty as to the term to maturity of the Notes because whether or not the Bank exercises the Call Option embedded in the Notes will be dependent on, among other things, future interest rates and market volatility. If the Bank does not exercise the Call Option on any Call Date, the term of the Notes will be approximately 10 years.

Governing Law:	The Province of Ontario and the federal laws of Canada applicable therein.
Attornment:	Courts of the Province of Ontario.
Agent:	Scotia Capital Inc. (“SCI”)
Calculation Agent:	SCI
Secondary Market:	SCI will endeavor to maintain a secondary market for the Notes under normal market conditions, but reserves the right not to do so at any time in the future in its sole and absolute discretion, without providing notice to noteholders. The secondary market price of the Notes will be dependent on a number of factors, in particular prevailing interest rates and the Call Option. A holder who sells a Note prior to the Maturity Date may receive sale proceeds that are less than the Principal Amount. The Notes will not be listed on any stock exchange.
Income Tax Considerations:	<p>An investor should consider the income tax consequences of an investment in the Notes, including those arising from a disposition of the Notes prior to the Maturity Date. This summary is of a general nature only and is not intended to be legal or tax advice to any investor. Investors are urged to consult their own tax advisors for advice with respect to the potential income tax consequences to them of an investment in the Notes having regard to their particular circumstances.</p> <p>An individual investor will be required to include in computing income for each taxation year the amount of interest that accrued to the end of any “anniversary day” in respect of a Note that falls during such year. An investor who holds a Note to a Call Date on which the Bank exercises the Call Option or the Maturity Date, as the case may be, will generally be required to include the full amount of the interest paid on the Note in computing income for the taxation year that includes such date, except to the extent that such interest has already been included in income for that or a preceding taxation year.</p>
US Selling Restrictions:	The Notes have not been and will not be registered under the United States Securities Act of 1933 (the “1933 Act”) and should not be offered or sold within the United States. SCI agrees that neither it, nor its affiliates(s), nor any persons acting on its behalf have engaged or will engage in any directed selling efforts (within the meaning of Regulation S of the 1933 Act) in the United States with respect to the Notes.
EU Selling Restrictions:	No prospectus (as defined in Directive 2017/1129/EC (as amended, the “ Prospectus Directive ”)) will be prepared in connection with the Notes. Accordingly, the Notes may not be offered to the public in any member state of the European Economic Area (the “ EEA ”) or in the United Kingdom, and any purchaser of the Notes who subsequently sells any of the Notes in any EEA member state or in the United Kingdom must do

so only in accordance with the requirements of the Prospectus Directive, as implemented in that member state.

Additional Information to Investors about the Notes:

Investors in the Notes should be aware that they are subject to certain risk factors. Potential investors in the Notes are urged to consult their own legal, accounting and tax advisors in order to determine the consequences of an investment in the Notes and to make an independent evaluation of such investment. Specific risk factors include, but are not limited to:

Non-Standard Investments: The Notes have certain investment characteristics that differ from traditional fixed income securities and do not provide a return or an income stream over the term of the Notes. Specifically, the performance of the Notes will not track the same price movements as traditional interest rate products. An investor should reach a decision to invest in the Notes after carefully considering, with his or her advisors, the suitability of the Notes in light of his or her investment objectives and the information set out in the above terms of the offering. Neither the Bank nor SCI makes any recommendation as to whether the Notes are a suitable investment for any person.

Call Provision: The Call Option of the Notes is unique. As a result of the Call Option, the price movement of the Notes will be quite different from that of other notes, bonds, and similar debt instruments with the same credit risk and term to maturity. For example, if prevailing interest rates fall, the market price of the Notes may be limited to the price applicable to the applicable Call Date. Investors are compensated for the uncertainty caused by the Call Option by receiving a higher yield compared to other debt instruments with a similar credit risk and term to maturity.

The Bank is more likely to exercise its right to call the Notes during periods of relatively low interest rates, or otherwise where it determines that its borrowing cost under the Notes is, or might be, higher than from other available sources. The decision to call (or not to call) the Notes will be made solely by the Bank and may occur at a point in time that is not advantageous to investors.

Suitability: An investment in the Notes may not be suitable for all investors. An investor should reach a decision to invest in the Notes after carefully considering the suitability of the Notes and his or her investment objectives. Neither the Bank nor SCI makes any recommendation as to the suitability of the Notes for an investor's investment purposes. Investors should consult with their investment advisor before making a decision regarding an investment in Notes.

Potential Conflicts of Interest:

The Bank and its affiliates may engage in activities and perform functions that could adversely impact the value of the Notes, the ability of the holder to resell their Notes or the amount or timing of receipt of payments under the Notes. Consequently, potential conflicts between the interests of holders and the Bank's interests may arise.

COVID-19 may have an adverse impact on the Bank:

On March 11, 2020, the World Health Organization declared COVID-19, a global pandemic. Governments and regulatory bodies in affected areas have imposed a number of measures designed to contain the outbreak, including government-mandated social distancing measures,

travel restrictions, quarantines and stay-at-home directives. The COVID-19 pandemic has resulted in a sharp decline in global economic growth as well as causing increased volatility, disruptions and declines in financial markets. The disruptive effects of the pandemic have contributed to economic slowdowns both domestically and globally, leading to lower GDP growth, and concerns about a prolonged recession in Canada or other countries worldwide. The depth and breadth of the impact of COVID-19 on the global economy and financial markets continues to evolve. If the COVID-19 pandemic is prolonged, or further diseases emerge that give rise to similar effects, the adverse impact on the global economy could deepen and result in further declines in global economic growth and financial markets. Accordingly, the full impact of the COVID-19 pandemic on the global economy and financial markets is uncertain and may have an adverse effect on the return on the Notes.

The COVID-19 pandemic has had disruptive effects in Canada and other countries and jurisdictions in which the Bank operates, has materially impacted and continues to materially impact the markets in which the Bank operates and has led to concerns about the sustainability of Canadian household indebtedness. A substantial amount of the Bank's business involves making loans or otherwise committing resources to specific companies, industries or countries. The impact of the COVID-19 pandemic on such borrowers, industries and countries could have significant adverse effects on the Bank's financial results, businesses, financial condition or liquidity, including as a result of the inability of borrowers to repay their loans to the Bank. The COVID-19 pandemic has and may continue to result in disruptions to the Bank's customers and the way in which the Bank conducts business, including the closure of certain branches, increased staff working off premises, and changes to operations due to higher volumes of client requests, as well as disruptions to key suppliers of the Bank's goods and services. As a result, the COVID-19 pandemic could adversely impact the quality and continuity of service to customers of the Bank, as well as, the business, results of operations, corporate reputation and financial condition of the Bank for a substantial period of time. Moreover, it remains uncertain how the macroeconomic environment, societal and business norms will be impacted following the COVID-19 pandemic. The post-COVID-19 environment may undergo unexpected developments or changes in financial markets, the fiscal, tax and regulatory environments, and consumer behavior which could adversely impact the Bank's operations, businesses, prospects, financial performance and financial condition.
