THIS OFFERING IS PRIVATE AND THEREFORE THE NOTES ARE NOT REGISTERED IN PERU ON THE SECURITIES MARKET PUBLIC REGISTRY OF THE SUPERINTENDENCIA DE MERCADO DE VALORES (“SMV”) AND THE OFFER IS NOT SUBJECT TO SUPERVISION BY THE PERUVIAN SMV.

MIFID II PRODUCT GOVERNANCE / PROFESSIONAL INVESTORS AND ECPS ONLY TARGET MARKET - Solely for the purposes of the manufacturer’s product approval process, the target market assessment in respect of the Notes has led to the conclusion that: (i) the target market for the Notes is eligible counterparties and professional clients only, each as defined in Directive 2014/65/EU (as amended, “MiFID II”); and (ii) all channels for distribution of the Notes to eligible counterparties and professional clients are appropriate. Any person subsequently offering, selling or recommending the Notes (a “distributor”) should take into consideration the manufacturer’s target market assessment; however, a distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the manufacturer’s target market assessment) and determining appropriate distribution channels.

UK MIFIR PRODUCT GOVERNANCE / PROFESSIONAL INVESTORS AND ECPS ONLY TARGET MARKET – Solely for the purposes of the manufacturer’s product approval process, the target market assessment in respect of the Notes has led to the conclusion that: (i) the target market for the Notes is only eligible counterparties, as defined in the FCA Handbook Conduct of Business Sourcebook (“COBS”), and professional clients, as defined in Regulation (EU) No 600/2014 as it forms part of UK domestic law by virtue of the European Union (Withdrawal) Act 2018, as amended (“UK MiFIR”); and (ii) all channels for distribution of the Notes to eligible counterparties and professional clients are appropriate. Any person subsequently offering, selling or recommending the Notes (a “distributor”) should take into consideration the manufacturer’s target market assessment; however, a distributor subject to the FCA Handbook Product Intervention and Product Governance Sourcebook (the “UK MiFIR Product Governance Rules”) is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the manufacturer’s target market assessment) and determining appropriate distribution channels.

PROHIBITION OF SALES TO EEA RETAIL INVESTORS - The Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the European Economic Area (“EEA”). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of MiFID II/ Directive 2014/65/EU (as amended, “MiFID II”); (ii) a customer within the meaning of Directive (EU) 2016/97, where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or (iii) not a qualified investor as defined in Regulation (EU) 2017/1129 (the “Prospectus Regulation”). Consequently no key information document required by Regulation (EU) No 1286/2014 (as amended, the “PRIIPs Regulation”) for offering or selling the Notes or otherwise making them available to retail investors in the EEA has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the EEA may be unlawful under the PRIIPs Regulation.

PROHIBITION OF SALES TO UK RETAIL INVESTORS – The Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made

Consequently, no key information document required by Regulation (EU) No 1286/2014 as it forms part of UK domestic law by virtue of the EUWA (the “UK PRIIPs Regulation”) for offering or selling the Notes or otherwise making them available to retail investors in the UK has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the UK may be unlawful under the UK PRIIPs Regulation.

See “Risk Factors” in Annex A. The sale of a Note in a secondary market (if any such secondary market exists at such time) prior to the Maturity Date will be effected at a price equal to (i) the bid price on the sale date, less (iii) any transaction charges that may or may not be levied by the relevant selling agent. ANNEX A

(This Annex forms part of the Final Terms to which it is attached)

Investment in the Notes entails risks, many of which differ from those of a conventional debt security. An investor's decision to purchase the Notes should be made only after carefully considering the risks of an investment in the Notes, including those discussed below, with an investor's advisors in light of an investor's particular circumstances.

The additional risk factors set out below must be read in conjunction with the relevant Risk Factors set out in the Prospectus on pages 12 to 62.

The Notes Lack Liquidity.

The Notes will not be listed on any securities exchange or automated quotation system. Therefore, there may be little or no secondary market for the Notes. SCI or any other dealer may, but is not obligated to, make a market in the Notes. Even if there is a secondary market, it may not provide enough liquidity to allow the holder to trade or sell the Notes easily. It is not expected that other broker-dealers will participate significantly in the secondary market for the Notes, therefore the price at which a holder may be able to trade the Notes is likely to depend on the price, if any, at which SCI, if they choose to make a market in the Notes, is willing to purchase the Notes. If at any time SCI or any other dealer were not to make a market in the Notes, it is likely that there would be no secondary market for the Notes. Accordingly, the holder should be willing to hold the Notes to maturity.

The Inclusion of Dealer Spread and Projected Profit from Hedging the Original Issue Price is Likely to Adversely Affect Secondary Market Prices.

Assuming no change in market conditions or any other relevant factors, the price, if any, at which SCI or any other party is willing to purchase the Notes at any time in secondary market transactions will likely be significantly lower than the original issue price, since secondary market prices are likely to exclude the cost of hedging our obligations under the Notes that are included in the original issue price. The cost of hedging includes the projected profit that the Issuer may realize in consideration for assuming the risks inherent in managing the hedging transactions. These secondary market prices are also likely to be reduced by the costs of unwinding the related hedging transactions. In addition, any secondary market prices may differ from values determined by pricing models used by SCI as a result of dealer discounts, mark-ups or other transaction costs.

Potential Conflicts.

The Issuer of the Notes and its affiliates play a variety of roles in connection with the issuance of the Notes, including acting as Calculation Agent and hedging, if applicable, its obligations under the Notes. In performing these duties, the economic interests of the Issuer and its affiliates are potentially adverse to the interests of Noteholders. The Issuer of the Notes will not have any obligations to consider the interests of Noteholders in taking any action that might affect the value of the Notes. Determinations made by the Issuer of the Notes or one of its affiliates in its capacity as Calculation Agent may adversely affect the payments of the Notes.

Not Insured.

The Notes are senior unsecured debt obligations of the Issuer and are not insured by the Canada Deposit Insurance Corporation or any other governmental agency or program of Canada or any other jurisdiction. An investment in the Notes is subject to the credit risk of the Issuer, and in the event that the Issuer is unable to pay its obligations as they become due, Noteholders may not receive the full payment at maturity of the Notes.

Deferral of Payment

The Notes provide that the maturity of the Note may be extended beyond the Scheduled Maturity Date in the event of the occurrence of an FX Disruption on or prior to the Scheduled Maturity Date. As a result, repayment of the Notes may be delayed for a significant period of time. No interest will accrue or be payable in respect of any extension period beyond the Scheduled Maturity Date.
