<sup>(1)</sup> The indexation methodology used to account for subsequent price developments since the date of the Original Market Value is based on the Teranet - National Bank Regional and Property Type Sub-Indices (TNB RPTSIs). Mortgaged properties are matched to the Teranet data which provides a granular analysis at the local level and, where available, segmented by property type. The data derived by the TNB RPTSIs is based on a repeat sales method, which measures the change in price of certain residential properties within the related area based on at least two sales of each such property over time. Such price change data is then used to formulate the TNB RPTSIs for the related area. The Original Market Value is as of the date it is most recently determined or assessed in accordance with the underwriting policies (whether upon origination or renewal of the Loan or subsequently thereto).

<sup>(2)</sup> Amounts are required to be credited to the Pre-Maturity Liquidity Ledger in respect of Series of Hard Bullet Covered Bonds in certain circumstances more fully described in the Transaction Documents.

<sup>(3)</sup> Per Section 4.3.8 of the CMHC Guide, (A) the lesser of (i) the total amount of cover pool collateral and (ii) the amount of cover pool collateral required to collateralize the covered bonds outstanding and ensure the Asset Coverage Test is met, divided by (B) the Canadian dollar equivalent of the principal amount of covered bonds outstanding under the registered covered bond program.

<sup>(4)</sup> Trading value method is the last selling price as of the Calculation Date of the covered bond.

<sup>(5)</sup> Present value of expected future cash flows of Loans, calculated using the weighted average current market interest rates offered to Scotiabank clients as at the last day of the month, being 3.2275%.

<sup>(6)</sup> Scotiabank currently reviews the Loans in its Covered Bond Portfolio, on a periodic basis, to ensure such Loans continue to be Eligible Loans. As a result of a review, a selection of Loans may be sold by the Guarantor to Scotiabank, including Loans that have ceased to be Eligible Loans or Loans that are at least 90 days past due or subject to foreclosure. Sales of Eligible Loans by the Guarantor that are at least 90 days past due or subject to foreclosure is done on a voluntary basis and the Guarantor is under no obligation to continue such sales or notify investors of any discontinuance of such sales. The sale of Loans by the Guarantor that were at least 90 days past due or subject to foreclosure reflected in this Investor Report were immaterial to the Covered Bond Portfolio's overall performance. Refer to Note 13 of Scotiabank's Form 40-F for the fiscal year ended October 31, 2021 for details on impaired loans and Scotiabank's residential mortgage portfolio.

<sup>(7)</sup> Includes Capitalized interest on loans acquired by Guarantor LP via draw on the Intercompany Loan. Amounts drawn by the Guarantor LP on the Intercompany Loan in respect of Capitalized Interest on acquired loans are included in the Intercompany Loan Principal Repayment.

<sup>(8)</sup> This amount is to be paid out on August 17th, 2022.

<sup>(9)</sup> This amount was paid out on July 18th, 2022.

<sup>(10)</sup> Amounts included are inflows net of expenses incurred, such as legal fees, filing fees, and service charges.
