

Our commitment to creating value for both society and Scotiabank

# COMMUNITY

## Our Commitment

**Scotiabank is committed to supporting the growth and prosperity of our communities.**

When communities thrive, individuals and businesses do too. We strategically invest in the communities where we operate in order to create opportunities for more people to succeed.

## Our Priority

At Scotiabank, we believe that investing in young people in the community is the path to community prosperity. According to the United Nations Population Fund, there are 1.8 billion young people in the world today. Many of them lack access to the education, training, and opportunities needed to succeed. Scotiabank supports local charities and not-for-profit initiatives

that invest in the health, well-being, and education of young people, helping position them to become the leaders of tomorrow. Investing in the #InfinitePotential of young people allows us to invest in the long-term security, stability, and growth of our future.

### Investing in Young People

We proudly work with community partners that enhance the health and education of young people in the community.

## Better Future, Better Off

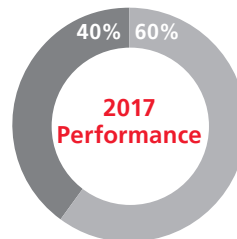

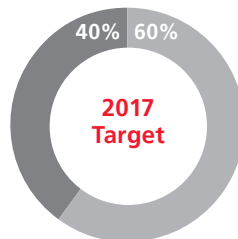

Through our commitments to customers, employees, communities, the environment, and corporate governance, we aim to promote economic growth and social impact wherever we operate, while maintaining the trust of our diverse stakeholders.

## Our Progress

### KEY PERFORMANCE INDICATOR

**% total philanthropic funding to support young people in the community**

- YOUNG PEOPLE IN THE COMMUNITY
