Scotiabank Trinidad and Tobago Limited

Financial results for the period ended 31 January 2022

Scotiabank_®

To Our Shareholders

The Directors are pleased to announce that Scotiabank Trinidad and Tobago Limited (The Group) realised, Income After Tax of \$185 million for the quarter ended 31 January 2022, an increase of \$39 million or 27% over the guarter ended 31 January 2021.

In a continuation of the trend started in 2021, our financial performance continues to improve as we begin to see signs of recovery beginning to positively impact the local economy. Total Revenue was \$475 million. \$34 million or 8% higher than the same period last year driven by an increase in Other Income of \$45 million or 37% as we continue to register recovery in key core banking activity lines. This was partially offset by lower Net Interest Income which declined by \$12 million or 4% due to interest rate compression and decline in Ioan balances during the prior year.

Non-Interest Expenses declined by \$27 million or 13% over the quarter ended 31 January 2021 as we continue to benefit from our Operational Cost focus since the start of the pandemic. This has improved our productivity from 45.3% to 36.5% over the same period, reinforcing our position as market leader within the industry.

Total Assets of \$27.7 billion increased by \$307 million or 1% over 31 January 2021. The Group's main interest earning asset, Loans to customers increased by \$98 million or 1% over prior year and \$560 million or 4% quarter over quarter as we continue to see recovery in different economic segments and increased consumer demand.

Whilst beginning to experience loan growth, we have seen an improvement in the credit quality of our loan portfolio. Our ratio of non-accrual loans total loans improving by 45 bps to 1.90%, reinforcing our pro-active strategies and innovative solutions to assisting customers experiencing financial difficulties. These measures coupled with consistent proactive communication with customers has been a major factor in our ability to reduce our non-accruals ratio to the lowest level that we have experienced in the last 6 years.

Our improvement in business performance has extended beyond the retail and commercial segments. Our insurance segment continues to grow with policyholder liabilities growing by \$117 million or 7% illustrating our customers confidence in our products and business model. From a wealth perspective, we have seen our assets under management increase by \$712 million or 21% as compared to January 31 2021.

Deposits from customers increased by \$61 million or 0.3% over last year and \$493 million or 2% quarter over quarter as we continue to see a return to confidence in deposit facilities with our customers. It should be noted that this growth in deposits is complementary to the growth seen in our insurance and wealth segments above, illustrating that we are tailoring our products and services to meet the diversified needs of our customer base

The COVID pandemic remains an active input in the world's economic prospects. Notwithstanding several challenges being faced on the world stage including the Russia-Ukraine war, rising inflation, labour shortages and supply chain issues, The Group remains cautiously optimistic on the future economic prospects for Trinidad and Tobago. Our core business lines continue to show growth and we have a strong and resilient capital base that will allow us to manage unforeseen shocks that may arise.

Based on these results, the Directors have approved a final dividend of 65 cents per share this quarter compared to 60 cents in the prior year. This dividend will be payable on 12 April 2022 to shareholders on record as at 28 March 2022.

As we continue to navigate the global uncertainties, we will continue to support our customers during these challenging times. We continue to urge everyone to stay safe and thank you for your continued support of Scotiabank

15 March 2022

Drek Know-Derek Hudson

Chairman

Gavle Pazos Managing Director
