### MANAGEMENT RESPONSIBILITY FOR FINANCIAL REPORTING

The accompanying financial statements of the Funds (as defined in Note 1) have been prepared by 1832 Asset Management L.P., in its capacity as manager (the "Manager") of the Funds, and have been approved by the Board of Directors of 1832 Asset Management G.P. Inc., as general partner for and on behalf of 1832 Asset Management L.P., in its capacity as trustee (the "Trustee") of the Funds. The Board of Directors of 1832 Asset Management G.P. Inc., as general partner for and on behalf of 1832 Asset Management L.P., is responsible for the information and representations contained in these financial statements and the management report of fund performance.

The Manager maintains appropriate processes to ensure that relevant and reliable financial information is produced. The financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") and include certain amounts that are based on estimates and judgments made by the Manager. The significant accounting policies which the Manager believes are appropriate for the Funds are described in Note 2 to the financial statements.

The Board of Directors of 1832 Asset Management G.P. Inc. has delegated responsibility for oversight of the financial reporting process to the Finance Committee of the Board of Directors of 1832 Asset Management G.P. Inc. (the "Finance Committee"). The Finance Committee is responsible for reviewing the financial statements and the management report of fund performance and recommending them to the Board of Directors of 1832 Asset Management G.P. Inc. for approval, in addition to meeting with management, internal auditors and external auditors to discuss internal controls over the financial reporting process, auditing matters and financial reporting issues.

KPMG LLP is the external auditor of the Funds, appointed by the Trustee of the Funds. The auditor of the Funds has audited the financial statements in accordance with Canadian generally accepted auditing standards to enable it to express to the securityholders its opinion on the financial statements. The auditor's report is set out herein.

#### **FUND SPECIFIC NOTES**

For the periods indicated in note 1

## The Fund (note 1)

The Fund's investment objective is to replicate, to the extent possible and before fees and expenses, the performance of a broadly diversified Canadian fixed income market index that tracks the investment returns of Canadian dollar-denominated investment grade bonds issued by governments and corporations.

The Fund may also invest a portion of its assets in funds managed by the Manager and/or by third party investment managers (the "Underlying Funds"). In addition to the risks described below, the Fund could be exposed to indirect risk to the extent that the Underlying Funds held financial instruments that were subject to the below risks.

#### Risks associated with financial instruments (note 4)

#### Interest rate risk

Below is a summary of the Fund's direct exposure to interest rate risk by the remaining term to maturity of the Fund's portfolio, net of short positions, if applicable, excluding Underlying Funds, preferred shares, cash and overdrafts, as applicable.

	December 31, 2022	December 31, 2021
Interest rate exposure	(\$)	(\$)
Less than 1 year	4,945,813	4,391,717
1-3 years	54,132,633	39,623,094
3-5 years	36,464,784	29,929,187
5-10 years	66,234,867	49,294,329
> 10 years	63,080,598	54,749,111
	224,858,695	177,987,438

As at December 31, 2022, had the prevailing interest rates fluctuated by 0.25%, assuming a parallel shift in the yield curve and all other variables held constant, net assets attributable to holders of redeemable units of the Fund would have decreased or increased by \$4,057,000 or approximately 1.8% (December 31, 2021 -\$3,543,000 or approximately 2.0%). In practice, actual results may differ from this sensitivity analysis and the difference could be material.

#### **Currency risk**

The Fund did not have significant direct currency risk exposure as at December 31, 2022 or December 31, 2021.

#### Price risk

The Fund did not have significant direct price risk exposure to equities, Underlying Funds, derivatives or commodities as at December 31, 2022 or December 31, 2021.

#### **FUND SPECIFIC NOTES**

For the periods indicated in note 1

#### The Fund (note 1)

The Fund's investment objective is to replicate, to the extent possible and before fees and expenses, the performance of a diversified Canadian large cap equity market index that tracks the investment returns of publicly traded large cap equity securities in Canada.

The Fund may also invest a portion of its assets in funds managed by the Manager and/or by third party investment managers (the "Underlying Funds"). In addition to the risks described below, the Fund could be exposed to indirect risk to the extent that the Underlying Funds held financial instruments that were subject to the below risks.

#### Risks associated with financial instruments (note 4)

#### Interest rate risk

The majority of the Fund's financial instruments were non-interest bearing as at December 31, 2022 and December 31, 2021. Accordingly, the Fund did not have significant direct interest rate risk exposure due to fluctuations in the prevailing levels of market interest rates.

#### **Currency risk**

Below is a summary of the Fund's direct exposure to currency risk. Amounts shown are based on the carrying value of monetary and non-monetary assets and liabilities of the Fund net of currency contracts and short positions, as applicable.

		December 31, 2022						
Currency	Gross currency exposure (\$)	Currency contracts (\$)	Net currency exposure (\$)	Percentage of net assets (%)				
US dollar	56,729	_	56,729	0.1				
	56,729	-	56,729	0.1				

		December 31, 2021						
Currency	Gross currency exposure (\$)	Currency contracts (\$)	Net currency exposure (\$)	Percentage of net assets (%)				
US dollar	13,109	_	13,109	0.0				
	13,109	_	13,109	0.0				

As at December 31, 2022, if the Canadian dollar fluctuated by 10% in relation to all other foreign currencies, with all other variables held constant, net assets attributable to holders of redeemable units of the Fund would have decreased or increased by \$6,000 or approximately 0.0% (December 31, 2021 - \$1,000 or approximately 0.0%). In practice, actual results may differ from this sensitivity analysis and the difference could be material.

### Price risk

As at December 31, 2022, approximately 99.6% (December 31, 2021 – 99.7%) of the Fund's net assets were directly exposed to price risk. If prices of these instruments had fluctuated by 10%, with all other variables held constant, net assets attributable to holders of redeemable units of the Fund would have decreased or increased by approximately \$8,483,000 (December 31, 2021 – \$3,284,000). In

practice, actual results may differ from this sensitivity analysis and the difference could be material.

#### Credit risk

The Fund did not have significant direct exposure to bonds and debentures, money market instruments or preferred shares as at December 31, 2022 or December 31, 2021.

#### Concentration risk

Below is a summary of the Fund's concentration risk by carrying value as a percentage of net assets.

#### **FUND SPECIFIC NOTES**

For the periods indicated in note 1

#### The Fund (note 1)

The Fund's investment objective is to replicate, to the extent possible and before fees and expenses, the performance of a broad equity market index that tracks the investment returns of publicly traded securities issued by large and mid capitalization companies in the emerging markets.

The Fund may also invest a portion of its assets in funds managed by the Manager and/or by third party investment managers (the "Underlying Funds"). In addition to the risks described below, the Fund could be exposed to indirect risk to the extent that the Underlying Funds held financial instruments that were subject to the below risks.

#### Risks associated with financial instruments (note 4)

#### Interest rate risk

The majority of the Fund's financial instruments were non-interest bearing as at December 31, 2022 Accordingly, the Fund did not have significant direct interest rate risk exposure due to fluctuations in the prevailing levels of market interest rates.

#### **Currency risk**

Below is a summary of the Fund's direct exposure to currency risk. Amounts shown are based on the carrying value of monetary and non-monetary assets and liabilities of the Fund net of currency contracts and short positions, as applicable.

As at December 31, 2022, if the Canadian dollar fluctuated by 10% in relation to all other foreign currencies, with all other variables held constant, net assets attributable to holders of redeemable units of the Fund would have decreased or increased by \$9,665,000 or

approximately 10.0% of net assets. In practice, actual results may differ from this sensitivity analysis and the difference could be material.

#### Price risk

As at December 31, 2022, approximately 83.1% of the Fund's net assets were directly exposed to price risk. If prices of these instruments had fluctuated by 10%, with all other variables held constant, net assets attributable to holders of redeemable units of the Fund would have decreased or increased by approximately \$8,063,000. In practice, actual results may differ from this sensitivity analysis and the difference could be material.

#### Credit risk

The Fund did not have significant direct exposure to bonds and debentures, money market instruments or preferred shares as at December 31, 2022.

#### **FUND SPECIFIC NOTES**

For the periods indicated in note 1

## The Fund (note 1)

The Fund's investment objective is to replicate, to the extent possible and before fees and expenses, the performance of a broad equity market index that tracks the investment returns of publicly traded securities issued by large and mid capitalization companies in the developed markets outside North America.

The Fund may also invest a portion of its assets in funds managed by the Manager and/or by third party investment managers (the "Underlying Funds"). In addition to the risks described below, the Fund could be exposed to indirect risk to the extent that the Underlying Funds held financial instruments that were subject to the below risks.

#### Risks associated with financial instruments (note 4)

#### Interest rate risk

The majority of the Fund's financial instruments were non-interest bearing as at December 31, 2022 and December 31, 2021. Accordingly, the Fund did not have significant direct interest rate risk exposure due to fluctuations in the prevailing levels of market interest rates.

#### **Currency risk**

Below is a summary of the Fund's direct exposure to currency risk. Amounts shown are based on the carrying value of monetary and non-monetary assets and liabilities of the Fund net of currency contracts and short positions, as applicable.

As at December 31, 2022, if the Canadian dollar fluctuated by 10% in relation to all other foreign currencies, with all other variables held constant, net assets attributable to holders of redeemable units of the Fund would have decreased or increased by \$22,468,000 or approximately 10.0% (December 31, 2021 – \$19,328,000 or approximately 10.0%). In practice, actual results may differ from this sensitivity analysis and the difference could be material.

#### Price risk

As at December 31, 2022, approximately 99.7% (December 31, 2021 – 99.8%) of the Fund's net assets were directly exposed to price risk. If prices of these instruments had fluctuated by 10%, with all other variables held constant, net assets attributable to holders of redeemable units of the Fund would have decreased or increased by approximately \$22,407,000 (December 31, 2021 – \$19,351,000). In practice, actual results may differ from this sensitivity analysis and the difference could be material.

#### Credit risk

The Fund did not have significant direct exposure to bonds and debentures, money market instruments or preferred shares as at December 31, 2022 and December 31, 2021.

#### **FUND SPECIFIC NOTES**

For the periods indicated in note 1

#### The Fund (note 1)

The Fund's investment objective is to replicate, to the extent possible and before fees and expenses, the performance of a responsible bond index that tracks the investment returns of Canadian dollar-denominated investment grade bonds.

The Fund may also invest a portion of its assets in funds managed by the Manager and/or by third party investment managers (the "Underlying Funds"). In addition to the risks described below, the Fund could be exposed to indirect risk to the extent that the Underlying Funds held financial instruments that were subject to the below risks.

#### Risks associated with financial instruments (note 4)

#### Interest rate risk

Below is a summary of the Fund's direct exposure to interest rate risk by the remaining term to maturity of the Fund's portfolio, net of short positions, if applicable, excluding Underlying Funds, preferred shares, cash and overdrafts, as applicable.

	December 31, 2022
Interest rate exposure	(\$)
Less than 1 year	403,635
1-3 years	5,827,408
3-5 years	4,090,354
5-10 years	6,624,864
> 10 years	5,260,531
	22,206,792

As at December 31, 2022, had the prevailing interest rates fluctuated by 0.25%, assuming a parallel shift in the yield curve and all other variables held constant, net assets attributable to holders of redeemable units of the Fund would have decreased or increased by \$221,656 or approximately 1.0%. In practice, actual results may differ from this sensitivity analysis and the difference could be material.

#### **Currency risk**

The Fund did not have significant direct currency risk exposure as at December 31, 2022.

#### Price risk

The Fund did not have significant direct price risk exposure to equities, Underlying Funds, derivatives or commodities as at December 31, 2022.

#### Credit risk

#### **FUND SPECIFIC NOTES**

For the periods indicated in note 1

#### The Fund (note 1)

The Fund's investment objective is to replicate, to the extent possible and before fees and expenses, the performance of a responsible equity index that tracks the investment returns of publicly traded equity securities in Canada.

The Fund may also invest a portion of its assets in funds managed by the Manager and/or by third party investment managers (the "Underlying Funds"). In addition to the risks described below, the Fund could be exposed to indirect risk to the extent that the Underlying Funds held financial instruments that were subject to the below risks.

#### Risks associated with financial instruments (note 4)

#### Interest rate risk

The majority of the Fund's financial instruments were non-interest bearing as at December 31, 2022. Accordingly, the Fund did not have significant direct interest rate risk exposure due to fluctuations in the prevailing levels of market interest rates.

#### **Currency risk**

Below is a summary of the Fund's direct exposure to currency risk. Amounts shown are based on the carrying value of monetary and non-monetary assets and liabilities of the Fund net of currency contracts and short positions, as applicable.

		December 31, 2022			
Currency	Gross currency exposure (\$)	Currency contracts (\$)	Net currency exposure (\$)	Percentage of net assets (%)	
US dollar	1,508	_	1,508	0.1	
	1,508	_	1,508	0.1	

As at December 31, 2022, if the Canadian dollar fluctuated by 10% in relation to all other foreign currencies, with all other variables held constant, net assets attributable to holders of redeemable units of the Fund would have decreased or increased by nil or approximately 0.0% of net assets. In practice, actual results may differ from this sensitivity analysis and the difference could be material.

### Price risk

As at December 31, 2022, approximately 99.6% of the Fund's net assets were directly exposed to price risk. If prices of these instruments had fluctuated by 10%, with all other variables held constant, net assets attributable to holders of redeemable units of the Fund would have decreased or increased by approximately \$217,000. In practice, actual results may differ from this sensitivity analysis and the difference could be material.

#### Credit risk

The Fund did not have significant direct exposure to bonds and debentures, money market instruments or preferred shares as at December 31, 2022.

#### Concentration risk

Below is a summary of the Fund's concentration risk by carrying value as a percentage of net assets.

	December 31, 2022

#### **FUND SPECIFIC NOTES**

For the periods indicated in note 1

#### The Fund (note 1)

The Fund's investment objective is to replicate, to the extent possible and before fees and expenses, the performance of a responsible equity index that tracks the investment returns of publicly traded equity securities issued by companies in the developed markets outside North America.

The Fund may also invest a portion of its assets in funds managed by the Manager and/or by third party investment managers (the "Underlying Funds"). In addition to the risks described below, the Fund could be exposed to indirect risk to the extent that the Underlying Funds held financial instruments that were subject to the below risks.

#### Risks associated with financial instruments (note 4)

#### Interest rate risk

The majority of the Fund's financial instruments were non-interest bearing as at December 31, 2022. Accordingly, the Fund did not have significant direct interest rate risk exposure due to fluctuations in the prevailing levels of market interest rates.

#### **Currency risk**

Below is a summary of the Fund's direct exposure to currency risk. Amounts shown are based on the carrying value of monetary and non-monetary assets and liabilities of the Fund net of currency contracts and short positions, as applicable.

As at December 31, 2022, if the Canadian dollar fluctuated by 10% in relation to all other foreign currencies, with all other variables held constant, net assets attributable to holders of redeemable units of the Fund would have decreased or increased by \$1,185,000 or approximately 10.0%. In practice, actual results may differ from this sensitivity analysis and the difference could be material.

#### Price risk

As at December 31, 2022, approximately 99.6% of the Fund's net assets were directly exposed to price risk. If prices of these instruments had fluctuated by 10%, with all other variables held constant, net assets attributable to holders of redeemable units of the Fund would have decreased or increased by approximately \$1,180,000. In practice,

actual results may differ from this sensitivity analysis and the difference could be material.

#### Credit risk

The Fund did not have significant direct exposure to bonds and debentures, money market instruments or preferred shares as at December 31, 2022.

#### **FUND SPECIFIC NOTES**

For the periods indicated in note 1

#### The Fund (note 1)

The Fund's investment objective is to replicate, to the extent possible and before fees and expenses, the performance of a responsible equity index that tracks the investment returns of publicly traded U.S. stocks.

The Fund may also invest a portion of its assets in funds managed by the Manager and/or by third party investment managers (the "Underlying Funds"). In addition to the risks described below, the Fund could be exposed to indirect risk to the extent that the Underlying Funds held financial instruments that were subject to the below risks.

#### Risks associated with financial instruments (note 4)

#### Interest rate risk

The majority of the Fund's financial instruments were non-interest bearing as at December 31, 2022. Accordingly, the Fund did not have significant direct interest rate risk exposure due to fluctuations in the prevailing levels of market interest rates.

#### **Currency risk**

Below is a summary of the Fund's direct exposure to currency risk. Amounts shown are based on the carrying value of monetary and non-monetary assets and liabilities of the Fund net of currency contracts and short positions, as applicable.

		December 31, 2022			
Currency	Gross currency exposure (\$)	Currency contracts (\$)	Net currency exposure (\$)	Percentage of net assets (%)	
US dollar	29,255,566	_	29,255,566	100.0	
	29,255,566	-	29,255,566	100.0	

As at December 31, 2022, if the Canadian dollar fluctuated by 10% in relation to all other foreign currencies, with all other variables held constant, net assets attributable to holders of redeemable units of the Fund would have decreased or increased by \$2,926,000 or approximately 10.0% of net assets. In practice, actual results may differ from this sensitivity analysis and the difference could be material.

### Price risk

As at December 31, 2022, approximately 99.8% of the Fund's net assets were directly exposed to price risk. If prices of these instruments had fluctuated by 10%, with all other variables held constant, net assets attributable to holders of redeemable units of the Fund would have decreased or increased by approximately \$2,921,000. In practice, actual results may differ from this sensitivity analysis and the difference could be material.

#### Credit risk

The Fund did not have significant direct exposure to bonds and debentures, money market instruments or preferred shares as at December 31, 2022.

#### Concentration risk

Below is a summary of the Fund's concentration risk by carrying value as a percentage of net assets.

#### **FUND SPECIFIC NOTES**

For the periods indicated in note 1

#### The Fund (note 1)

The Fund's investment objective is to replicate, to the extent possible and before fees and expenses, the performance of a broad U.S. equity market index that tracks the investment returns of publicly traded large capitalization U.S. stocks.

The Fund may also invest a portion of its assets in funds managed by the Manager and/or by third party investment managers (the "Underlying Funds"). In addition to the risks described below, the Fund could be exposed to indirect risk to the extent that the Underlying Funds held financial instruments that were subject to the below risks.

#### Risks associated with financial instruments (note 4)

#### Interest rate risk

The majority of the Fund's financial instruments were non-interest bearing as at December 31, 2022 and December 31, 2021. Accordingly, the Fund did not have significant direct interest rate risk exposure due to fluctuations in the prevailing levels of market interest rates.

#### **Currency risk**

Below is a summary of the Fund's direct exposure to currency risk. Amounts shown are based on the carrying value of monetary and non-monetary assets and liabilities of the Fund net of currency contracts and short positions, as applicable.

	December 31, 2022			
Currency	Gross currency exposure (\$)	Currency contracts (\$)	Net currency exposure (\$)	Percentage of net assets (%)
US dollar	546,760,990	-	546,760,990	100.0
	546,760,990	_	546,760,990	100.0

		December 31, 2021			
Currency	Gross currency exposure (\$)	Currency contracts (\$)	Net currency exposure (\$)	Percentage of net assets (%)	
US dollar	480,841,047	_	480,841,047	100.0	
	480,841,047	-	480,841,047	100.0	

As at December 31, 2022, if the Canadian dollar fluctuated by 10% in relation to all other foreign currencies, with all other variables held constant, net assets attributable to holders of redeemable units of the Fund would have decreased or increased by \$54,676,000 or approximately 10.0% of net assets (December 31, 2021-\$48,084,000 or approximately 10.0%). In practice, actual results may differ from this sensitivity analysis and the difference could be material.

### Price risk

As at December 31, 2022, approximately 99.9% (December 31, 2021 – 99.9%) of the Fund's net assets were directly exposed to price risk. If prices of these instruments had fluctuated by 10%, with all other variables held constant, net assets attributable to holders of redeemable units of the Fund would have decreased or increased by approximately \$54,608,000 (December 31, 2021 – \$48,029,000). In

practice, actual results may differ from this sensitivity analysis and the difference could be material.

#### Credit risk

The Fund did not have significant direct exposure to bonds and debentures, money market instruments or preferred shares as at December 31, 2022 and December 31, 2021.

#### Concentration risk

Below is a summary of the Fund's concentration risk by carrying value as a percentage of net assets.

	December 31, 2022	December 31, 2021
EQUITIES	99.9	99.9
Communication Services	7.3	10.1

	Level 1	Level 2	Level 3	Total
December 31, 2021	(\$)	(\$)	(\$)	(\$)
December 31, 2021 Equities				

#### Transfers between levels

During the periods ended December 31, 2022 and December 31, 2021, there were no significant transfers between Level 1 and Level 2.

### Offsetting of financial assets and liabilities (note 2)

As at December 31, 2022 and December 31, 2021, the Fund did not enter into any agreement whereby the financial instruments were eligible for offset.

#### Interest in Underlying Funds (note 2)

The Fund did not hold any interest in Underlying Funds as at December 31, 2022 or December 31, 2021.

# Comparison of net asset value per unit and net assets per unit (note 2)

As at December 31, 2022 and December 31, 2021, there were no significant differences between the net asset value per unit and the net assets per unit for any series of the Fund.

#### NOTES TO THE FINANCIAL STATEMENTS

For the period indicated in note 1

#### 1. The Funds

1832 Asset Management L.P., a wholly owned subsidiary of The Bank of Nova Scotia ("Scotiabank"), is the manager and trustee of the Scotia ETFs (collectively, "the Funds", individually a "Fund"). In this document, "we", "us", "our", the "Manager", the "Trustee", and "1832 Asset Management" refer to 1832 Asset Management L.P. The registered office of the Funds is 40 Temperance Street, 16th Floor, Toronto, ON, M5H 0B4.

The Funds presented in these interim financial statements are exchange traded mutual funds established under the laws of the Province of Ontario, pursuant to the terms of the Declaration of Trust dated May 18, 2018.

The Manager has appointed State Street Global Advisors ("SSGA Canada") to act as sub-advisors of the Funds. State Street Trust Company Canada is the custodian of the Funds as well as the registrar and transfer agent for the units of the Funds. In addition, State Street Bank and Trust Company also provides accounting services in respect of the Funds and may act as the securities lending agent for the Funds.

The Statements of Financial Position of each of the Funds are as at December 31, 2022 and 2021, and the Statements of Comprehensive Income, Statements of Changes in Net Assets Attributable to Holders of Redeemable Units and Statements of Cash Flows are for the years ended December 31, 2022 and 2021. The Schedule of Investment Portfolio for each of the Funds is as at December 31, 2022. Throughout this document, reference to the period or periods refers to the reporting period described above.

These financial statements were approved and authorized for issue on March 9, 2023, by the Board of Directors of 1832 Asset Management G.P. Inc., as general partner for and on behalf of 1832 Asset Management L.P., in its capacity as Trustee of the Funds.

The investment objectives for each of the Funds are provided in the respective Fund's "Fund Specific Notes". The inception date for each Fund is as follows:

Fund Name	Inception Date
Scotia Canadian Bond Index Tracker ETF	October 29, 2020
Scotia Canadian Large Cap Equity Index Tracker ETF	October 29, 2020
Scotia Emerging Markets Equity Index Tracker ETF	November 15, 2022
Scotia International Equity Index Tracker ETF	October 29, 2020
Scotia Responsible Investing Canadian Bond Index ETF	January 4, 2022
Scotia Responsible Investing Canadian Equity Index	January 4, 2022
Scotia Responsible Investing International Equity Index ETF	January 4, 2022
Scotia Responsible Investing U.S. Equity Index ETF	January 4, 2022
Scotia U.S. Equity Index Tracker ETF	October 29, 2020

Each Fund is authorized to issue an unlimited number of classes or series of redeemable, transferable units, each of which represents an undivided interest in the net assets of that Fund (the "Units"). The units of the Funds are listed on NEO Exchange Inc. The Funds will generally issue units directly to the designated broker and dealers. Scotia Capital Inc., an affiliate of the Manager, is the designated broker of the Funds.

### 2. Summary of Significant Accounting Policies

The significant accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to the period presented, unless otherwise stated.

#### (a) Basis of accounting

These annual financial statements of the Funds have been prepared in accordance with International Financial Reporting Standards ("IFRS").

The preparation of these financial statements in accordance with IFRS requires the use of judgment in applying accounting policies and to make estimates and assumptions concerning the future. Significant accounting judgments and estimates made by the Manager are disclosed in Note 3.

#### (b) Financial instruments

Classification

The Funds classify investments, including derivatives, at fair value through profit or loss. Investment classification is based on both the Funds' business model for managing those investments and their contractual cash flow characteristics. The portfolio of investments is managed and performance is evaluated on a fair value basis. The Funds are primarily focused on fair value information and use that information to assess performance and to make decisions. The contractual cash flows of the Funds' debt securities are generally principal and interest, however, the collection of contractual cash flows is only incidental to achieving the Funds' business model's objective. Consequently, all investments are measured at fair value through profit or loss.

Derivatives include warrants, swaps, options, futures and forward currency contracts. Derivative contracts that have a negative fair value are classified as financial liabilities at fair value through profit or loss.

As such, the Funds classify all investments and derivatives as financial assets or liabilities at fair value through profit or loss.

Receivable for securities sold, subscription receivable, accrued investment income and other are measured at amortized cost.

All other financial liabilities, other than those classified as fair value through profit or loss are measured at amortized cost.

Recognition and measurement

Regular purchases and sales of investments are recognized on the date on which the Funds initiate a trade to purchase or sell investments at fair value. Transaction costs are expensed as incurred in the Statements of Comprehensive Income. Financial assets and liabilities at fair value through profit or loss are measured at fair value as presented below. Gains and losses arising from changes in their fair value are included in the Statements of Comprehensive Income for the period in which they arise.

# (c) Fair value measurement and hierarchy of financial instruments

Fair value of a financial instrument is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e. an exit price). Fair value of financial assets and liabilities traded in active markets (such as publicly traded derivatives and

marketable securities) is based on quoted market prices at the close of trading on the reporting date. The Funds use the last traded market price for both financial assets and financial liabilities where the last traded price falls within that day's bid-ask spread. In circumstances where the last traded price is not within the bid-ask spread, the Manager determines the point within the bid-ask spread that is most representative of fair value based on the specific facts and circumstances.

The fair value of financial assets and liabilities that are not traded in an active market, including over-the-counter derivatives, is determined using valuation techniques. The Funds use a variety of methods and make assumptions that are based on market conditions existing at each reporting date. Valuation techniques include the use of comparable recent arm's length transactions, reference to other instruments that are substantially the same, discounted cash flow analysis, option pricing models and other techniques commonly used by market participants which make the maximum use of observable inputs.

IFRS 13, Fair value measurement, requires the use and disclosure of a fair value hierarchy that categorizes into three levels the inputs to valuation techniques used to measure fair value of financial instruments. The fair value hierarchy gives the highest priority to quoted prices (unadjusted) in active markets and the lowest priority to unobservable inputs. The three level hierarchy based on inputs levels are defined as follows:

- Level 1: Fair value is based on unadjusted quoted prices in active markets for identical assets or liabilities;
- Level 2: Fair value is based on inputs other than unadjusted quoted prices included in level 1 that are observable for the assets or liabilities, either directly or indirectly; and
- Level 3: Fair value is based on at least one significant nonobservable input that is not supported by market data for the financial assets or liabilities.

Changes in valuation methodology may result in transfers in and out of a level. The Funds' policy is to recognize these transfers as of the date of the event or circumstance giving rise to the transfer. The three level fair value hierarchy, transfers between levels and a reconciliation of level 3 financial instruments, as applicable, are disclosed in the respective Fund's "Fund Specific Notes".

The Manager is responsible for performing the fair value measurements included in the financial statements of the Funds, including level 3 measurements. The Manager considers several factors in fair valuation, including but not limited to, pricing from a third-party pricing vendor, and internal valuation models based on company fundamental data and/or market data. These are monitored and reviewed by the valuation team daily. At each financial reporting date, the Manager reviews and approves all level 3 fair value measurements. The Manager also has a Valuation Committee which includes members of the finance team, as well as members of the investment counsel and compliance teams. The committee meets quarterly to perform detailed reviews of the valuations of investments held by the Funds.

Financial instruments are valued at their fair value as summarized below:

 Equities, including exchange-traded funds and closed-end funds, are valued at the closing market price recorded by the security exchange on which the security is principally traded.

- (ii) Fixed income securities, including bonds and mortgage-backed securities, are valued by using mean price quotations received from independent pricing sources.
- (iii) Short-term debt instruments are carried at amortized cost, which approximates fair value.
- (iv) Investments in underlying mutual funds are valued based on the net asset value per unit provided by the underlying mutual funds' manager at the end of each valuation date.
- (v) Unlisted warrants are valued using the Black-Scholes option valuation model. The model factors in the time value of money and the volatility inputs significant to such valuation. For purposes of determining Net Asset Value as defined below, unlisted warrants are valued at their intrinsic value.
- (vi) Options contracts are valued at their mid-price as reported by the principal exchange or the over-the-counter market on which the contract is traded. All transactions in over-the-counter options are valued using quotations received from independent pricing sources. Options on futures are valued using settlement price determined by the exchange (if available); if no settlement price is available, the last reported closing sale price on the valuation date; or, if no closing sale price is available, the last reported settlement price. Exchange traded index options are valued using the 4 pm mid-price as reported by the principal exchange.
- (vii) Futures contracts are valued at their settlement prices on each valuation date.
- (viii) Open forward currency contracts are valued at the gain or loss that would arise as a result of closing the position on the valuation date.
- (ix) Over-the-counter swap contracts are valued at the amount that the Funds would receive or pay to terminate the swap, based on the current value of the underlying interest on the valuation date; centrally cleared swaps listed or traded on a multilateral or trade facility platform, such as a registered exchange, are valued at the daily settlement price determined by the respective exchange (if available);

#### (d) Net Assets versus Net Asset Value

The Funds' accounting policies for measuring the fair value of their investments and derivatives are identical to those used in measuring their net asset value in accordance with Part 14 of National Instrument 81-106 Investment Funds Continuous Disclosure ("NI 81-106"), except where the last traded market price for financial assets and liabilities are not within the bid-ask spread or the Funds hold unlisted warrants, as described above. A comparison of the net assets per unit in accordance with IFRS ("Net Assets per unit") and the net asset value per unit calculated in accordance with NI 81-106 ("Net Asset Value per unit") is presented in the "Fund Specific Notes" for each Fund, as applicable.

#### (e) Income recognition

Gains and losses arising from changes in fair value of non-derivative financial assets are shown in the Statements of Comprehensive Income as "Change in unrealized gain (loss) on non-derivative financial assets", and as "Net realized gain (loss) on non-derivative financial assets" when positions are sold.

Gains and losses arising from changes in fair value of derivatives are shown in the Statements of Comprehensive Income as "Change in unrealized gain (loss) on derivatives", and as "Net realized gain (loss) on derivatives" when positions are closed out or have expired, where applicable.

The premium received or paid on options purchased or written are included in the cost of the options. Any difference resulting from revaluation at the reporting date is treated as "Change in unrealized gain (loss) on derivatives", while the gains and losses realized when the position is closed is included in the Statements of Comprehensive Income as "Net realized gain (loss) on derivatives".

Dividend income and distributions from Underlying Funds are recognized on the ex-dividend date. Distributions received from Underlying Funds are recognized based on the nature of the underlying components such as dividend income, interest income, capital gains, and return of capital by applying previous year characterizations reported by the Underlying Fund as current year characterizations are not available until the following year. The interest, dividend and capital gain income components of the distributions received from Underlying Funds are included in "Interest for distribution purposes", "Dividends" and "Net realized gain (loss) on non-derivative financial assets", respectively, in the Statements of Comprehensive Income.

Interest for distribution purposes represents amortization of zero coupon bonds as well as the coupon interest received by the Funds, recognized on an accrual basis. The Funds do not amortize premiums paid or discounts received on the purchase of fixed income securities. Realized gains or losses on the sale of short-term debt instruments are recorded as an adjustment to "Interest for distribution purposes".

# (f) Functional and presentation currency and foreign exchange translation

The functional and reporting currency for all Funds is the Canadian dollar. The functional currency is the currency of the primary economic environment in which the Funds operate, or where mixed indicators exist in the primary environment, the currency in which they primarily raise capital. Any currency other than functional currency represents foreign currency to the Funds. Amounts denominated in foreign currencies are converted into the functional currency as follows:

- (i) The fair values of investments, derivative contracts and monetary and non-monetary assets and liabilities at the rates of exchange prevailing as at the valuation date;
- (ii) Foreign income and expenses at the rates of exchange applicable on the respective dates of such transactions; and
- (iii) Purchase or sale of investments and investment income at the rate of exchange prevailing on the respective dates of such transactions.

Gains and losses on foreign exchange incurred in the Funds from monetary or non-monetary assets and liabilities other than investments and derivatives are shown in the Statements of Comprehensive Income as "Net realized and unrealized foreign currency translation gain (loss)".

#### (g) Investments in unconsolidated structured entities

Funds may invest in one or more exchange-traded funds managed by the Manager or third party investment managers. The relevant Funds consider all investments in such instruments ("Underlying Funds") to be investments in unconsolidated structured entities based on the fact that the decisions made by these Underlying Funds are not governed by voting rights or any other similar rights held by the Funds. The Funds account for these unconsolidated structured entities at fair value.

The Underlying Funds each have their own objectives and investment strategies which assist the Funds in achieving their investment objectives. The Underlying Funds primarily finance their operations by issuing redeemable units which are puttable at the holder's option in the case of exchange-traded funds. The Underlying Funds entitle the holder to a proportional stake in the respective fund's net assets. The Funds hold units in each of their Underlying Funds. These investments are included in "Non-derivative financial assets" in the Statements of Financial Position. The change in fair value of each Underlying Fund is included in the Statements of Comprehensive Income in "Change in unrealized gain (loss) on non-derivative financial assets". The exposure to investments in Underlying Funds at fair value is disclosed in the Funds' "Fund Specific Notes". The Funds' maximum exposure to loss from their interests in Underlying Funds is equal to the total carrying value of their investments in Underlying Funds.

### (h) Redeemable units issued by the Funds

The Funds' outstanding redeemable units qualify as "puttable instruments" and have been classified as liabilities as per International Accounting Standard 32: *Financial Instruments: Presentation* ("IAS 32"). The judgement related to this classification is described in Note 7.

### (i) Offsetting of financial instruments

Financial assets and liabilities are offset and the net amount is presented in the Statements of Financial Position only if there is an unconditional legal right to offset the amounts and there is an intention either to settle on a net basis or to realize the asset and settle the liability simultaneously. Income and expenses are presented on a net basis only when permitted under IFRS, for gains and losses arising from a group of similar transactions, such as gains and losses from financial instruments at fair value through profit or loss. Financial assets and liabilities that are subject to master netting or comparable agreements and the related potential effect of offsetting are disclosed in the respective Fund's "Fund Specific Notes".

# (j) Increase (decrease) in net assets attributable to holders of redeemable units per unit

"Increase (decrease) in net assets attributable to holders of redeemable units per unit" is disclosed in the Statements of Comprehensive Income and represents the increase or decrease in net assets attributable to holders of redeemable units from operations for the period divided by the weighted average number of units outstanding during the period.

#### (k) Cash and bank overdraft

Cash is comprised of cash on deposit and bank overdraft, as applicable. Short term instruments are disclosed in "Non-derivative financial assets" in the Statements of Financial Position.

#### (I) Non-cash transactions

Non-cash transactions on the Statements of Cash Flows include reinvested distributions from the Underlying Funds and stock dividends from equity investments. These amounts represent non-cash income recognized in the Statements of Comprehensive Income.

Subscriptions and redemptions satisfied by baskets of securities are also non-cash in nature and have been excluded from "Proceeds from issue of redeemable units" and "Amounts paid on redemption of redeemable units" in the Statements of Cash Flows. Additionally, the related investment transactions have been excluded from "Purchases of non-derivative financial assets and liabilities" and "Proceeds from sale of non-derivative financial assets and liabilities" in the Statements of Cash Flows.

#### 3. Significant Accounting Judgments and Estimates

The preparation of financial statements requires the Manager to use judgment in applying its accounting policies and to make estimates and assumptions about the future. These estimates are made based on information available as at the date of issuance of the financial statements. Actual results could materially differ from those estimates. The following discusses the most significant accounting judgments and estimates that the Funds have made in preparing the financial statements:

#### Investment Entities

In accordance with IFRS 10: Consolidated Financial Statements, the Manager has determined that the Funds meet the definition of an Investment Entity which requires that the Funds obtain funds from one or more investors for the purpose of providing investment management services, commit to their investors that their business purpose is to invest funds solely for returns from capital appreciation, investment income, or both; and measure and evaluate the performance of their investments on a fair value basis. Consequently, the Funds do not consolidate their investment in subsidiaries, if any, but instead measure these at fair value through profit or loss, as required by the accounting standard.

Classification and measurement of financial instruments

In classifying and measuring certain financial instruments held by the Funds, the Manager is required to make significant judgments about whether or not the business model of the Funds is to manage their assets on a fair value basis and to realize those fair values, for the purpose of classifying all financial instruments as fair value through profit or loss under IFRS 9.

Fair value measurement of financial instruments not quoted in an active market

Key areas of estimation, where the Manager has made complex or subjective judgments, include the determination of fair values of financial instruments that are not quoted in an active market. The use of valuation techniques for financial instruments that are not quoted in an active market requires the Manager to make assumptions that are based on market conditions existing as at the date of the financial statements. Changes in these assumptions as a result of changes in market conditions could affect the reported fair value of financial instruments.

#### 4. Discussion of Financial Instrument Risk

Each Fund's investment activities expose it to a variety of financial risks: market risk (including interest rate risk, currency risk, and other price risk), credit risk, liquidity risk, and concentration risk. Each Fund's investment practices include portfolio monitoring to ensure compliance with stated investment guidelines. The Manager seeks to minimize potential adverse effects of risks on each Fund's performance by employing and overseeing professional and experienced portfolio advisors that regularly monitor each Fund's securities and financial market developments. The risks are measured using a method that reflects the expected impact on the results and net assets attributable to unitholders of the Funds from reasonably possible changes in the relevant risk variables.

The Manager maintains a risk management practice that includes monitoring compliance with investment restrictions to ensure that the Funds are being managed in accordance with the Funds' stated investment objectives, strategies and securities regulations.

The Funds may invest in Underlying Funds. These Funds may get indirectly exposed to market risk, credit risk, and liquidity risk in the event that the Underlying Funds invest in financial instruments that are subject to those risks.

A Funds' exposure to market risk, credit risk and liquidity risk, where applicable, is disclosed in the respective Fund's "Fund Specific Notes".

Market disruptions associated with the COVID-19 pandemic and geopolitical conflicts have had a global impact, and uncertainty exists as to the long-term implications. Such disruptions can adversely affect the financial instrument risks associated with each of the Funds.

### (a) Market risk

#### (i) Interest rate risk

Interest rate risk arises from the possibility that changes in interest rates will affect the future cash flows or the fair values of interest-bearing financial instruments. Each Fund's exposure to interest rate risk is concentrated in its investments in debt instruments (such as bonds and debentures) and interest rate sensitive derivative instruments, if any.

### (ii) Currency risk

The Funds may invest in or take short positions in monetary and non-monetary instruments denominated in currencies other than their functional currency. Currency risk is the risk that the value of foreign instruments will fluctuate due to changes in the foreign exchange rates of those currencies in relation to the Funds' functional currency. Funds may enter into currency forward contracts, currency futures contracts and/or foreign currency option contracts for hedging purposes to reduce their foreign currency risk exposure.

#### (iii) Price risk

Price risk is the risk that the fair value of a Funds' financial instruments will fluctuate as a result of changes in market prices (other than those arising from interest rate risk or currency risk) caused by factors specific to a security, its issuer or all factors affecting a market or a market segment. Exposure to price risk is mainly in equities, Underlying Funds, and derivatives. The maximum risk resulting from these financial instruments is equivalent to their fair value, except for written options where possible losses can be unlimited.

#### (b) Credit risk

Credit risk is the risk that the issuer of a financial instrument will fail to discharge an obligation or commitment that it has entered into with the Funds. A Fund's investment in financial instruments such as bonds, debentures, money market instruments, preferred shares and derivatives represents the main concentration of credit risk. The fair value of financial instruments includes consideration of the creditworthiness of the issuer, and accordingly, represents the maximum credit risk exposure to the Funds. All the transactions in listed securities and derivatives are settled or paid upon delivery using approved brokers with an approved credit rating. The risk of default with the counterparty is considered minimal, as delivery of securities sold is only made once the broker has received payment. Payment is only made on a purchase once the securities have been received by the broker.

The Trade Management Oversight Committee is responsible for regulatory evaluation and approval of trade management policies and procedures, when applicable, and is also responsible for counterparty selection and oversight. The committee reviews counterparties regularly to ensure they still meet preapproved credit standards established by the committee. The counterparty policies and procedures established by the committee have been reviewed and approved by the Board of Directors of the Manager.

The Funds enter into transactions with approved counterparties with a designated rating in accordance with securities regulations.

The credit ratings reported in the financial statements for issuers of debt instruments, counterparties of derivative transactions, prime brokers and custodians, where applicable, are S&P Global Ratings' credit ratings or S&P Global Ratings equivalent for credit ratings from other approved rating agencies. In instances where the credit rating was to fall below the designated rating, the Manager would take appropriate action.

The Funds can also be exposed to credit risk to the extent that the Funds' custodian may not be able to settle trades for cash. Canadian securities regulations require that the Funds employ a custodian that meets certain capital requirements. These regulations state that, among other things, a fund's custodian be either a bank listed in Schedule I, II, or III of the Bank Act (Canada), or a company incorporated in Canada affiliated with a bank with shareholders' equity of not less than \$10,000,000. State Street Trust Company Canada, as the custodian of the Funds meets all of the Canadian Securities Administrators' requirements to act as the custodian.

Funds may enter into securities lending transactions with counterparties whereby the Funds temporarily exchange securities for collateral with a commitment by the counterparty to deliver the same securities on a future date. Credit risk associated with these transactions is considered minimal as all counterparties have approved credit rating and the market value of cash or securities held as collateral must be at least 102% of the fair value of the securities loaned as at the end of each trading day.

#### (c) Liquidity risk

All financial liabilities of the Funds mature in one year or less, unless otherwise noted. The Funds' exposure to liquidity risk arises primarily from the redemption of units. The Funds are not exposed to any significant liquidity risk when the redemption of units is in the form of securities or when the redemption of units is in cash as Funds

primarily invest in securities that are traded in active markets and can be readily disposed of. In addition, each Fund aims to retain sufficient cash and cash equivalent positions to maintain liquidity. The Funds may, from time to time, enter into over-the-counter derivative contracts or invest in securities that are not traded in an active market and may be illiquid. Illiquid securities are identified in the respective Fund's Schedule of Investment Portfolio, as applicable.

#### (d) Concentration risk

Concentrations of risk arise from financial instruments that have similar characteristics and are affected similarly by changes in economic or other conditions. The identification and disclosure of concentration risk is provided in the respective Fund's "Fund Specific Notes".

## 5. Management Fees

The Funds pay the Manager management fees in consideration for providing, or arranging for the provision of, management, trustee and portfolio advisory services, maintaining portfolio systems used to manage the Funds, maintaining the website of the Funds, marketing and promotional services and the payment of fees for sub-advisory services.

The management fee is an annualized rate based on the net asset value of the Funds. The management fees paid by the Funds are calculated and accrued daily and are generally paid monthly, but in any case, not less than quarterly.

To encourage very large investments in the Funds and to ensure management fees are competitive for these investments, the Manager may at its discretion agree to charge a reduced fee as compared to the fee it otherwise would be entitled to receive from Funds with respect to investments in the Funds by unitholders that hold units having a specified aggregate value. Such a reduction will be dependent upon a number of factors, including the amount invested, the total assets of the Funds under administration and the expected amount of account activity. An amount equal to the difference between the fee otherwise chargeable and the reduced fee of the Funds will be distributed quarterly in cash by the Funds, at the discretion of the Manager.

The Funds may invest in one or more Underlying Funds that charge a management fee. To ensure there is no duplication of management fees between the Funds and Underlying Funds held directly by them, the Manager has agreed to absorb all Underlying Funds' Management Fees that are incurred by each Fund resulting from its investments in any Underlying Funds, regardless of whether the Underlying Funds are managed by the Manager or a third party. These are included in the Statements of Comprehensive Income as "Expenses absorbed by the Manager", as applicable.

The Manager is entitled to an annual management fee, exclusive of sales taxes, as follows:

Fund Name	Management fee
Scotia Canadian Bond Index Tracker ETF	0.05%
Scotia Canadian Large Cap Equity Index Tracker ETF	0.03%
Scotia Emerging Markets Equity Index Tracker ETF	0.16%
Scotia International Equity Index Tracker ETF	0.15%

#### 6. Fixed Administration Fee and Operating Expenses

The Manager pays the operating expenses of the Funds, other than fees and expenses incurred in complying with NI 81-107 (including the

fees payable and expenses reimbursed to members of the Independent Review Committee), brokerage expenses and commissions, fees relating to the usage of derivatives, the cost of complying with any new government or regulatory requirements introduced after October 20, 2020, any new types of costs, expenses or fees not incurred prior to October 20, 2020, including those related to external services that were not commonly charged in the Canadian mutual fund industry, any new fee introduced after October 20, 2020 by a securities regulator or other government authority that is based on the assets or other criteria of the funds, income tax, harmonized sales tax ("HST"), withholding tax and other taxes.

The Funds are required to pay HST on management fees charged to the Funds. In general, the total HST paid by the Funds will depend on the distribution by provincial residence of the Funds' unitholders. Changes in existing HST rates, changes to the group of provinces that have adopted harmonization, and changes in the distribution by provincial residence of the Funds' unitholders will have an impact on the management expense ratio of the Funds year over year.

Apart from the initial organizational costs of the Funds, all expenses related to the issuance of units of the Funds shall be borne by the Funds unless otherwise waived or reimbursed by the Manager.

In consideration for the payment by the Funds of a fixed administration fee (the "Fixed Administration Fee") to the Manager, and subject to compliance with NI 81-102, the Manager pays for the following operating expenses of the Funds ("Operating Expenses"), including but not limited to: transfer agency and recordkeeping, accounting and fund valuation costs, custody fees, audit and legal fees, administration costs, bank charges, costs of preparing and distributing annual and semi-annual reports, prospectuses, Fund facts and statements, investor communications, continuous disclosure materials, mailing and printing expenses for periodic reports to unitholders; fees and expenses relating to voting of proxies by a third party; stock exchange and index licensing fees and CDS fees. The Manager may, in some years and in certain cases, pay a portion of a Fund's Fixed Administration Fee. The Manager is not obligated to pay any other expense, cost or fee, including those arising from new government or regulatory requirements relating to the foregoing expenses, costs and fees.

The amount of the applicable Fixed Administration Fee that will apply to a Fund will fall under one of three tiers depending on the amount of net assets of that Fund as at the end of the immediately preceding calendar month-end. The three tiers are: (i) less than \$750 million in net assets; (ii) \$750 million to \$3 billion in net assets; and (iii) greater than \$3 billion in net assets. The Fixed Administration Fee is calculated as a fixed annual percentage (accrued daily and payable monthly) of the net asset value of each applicable Fund as follows:

	Her i	Her Z	Her 5
Fixed Administration Fee	Assets Under Management ("AUM") Up to \$750M	AUM Up to \$3,000M	AUM Over \$3,000M
Scotia Canadian Bond Index Tracker ETF	0.03%	0.03%	0.02%

#### 7. Redeemable Units

Units issued and outstanding represent the capital of each Fund. Each of the Funds may issue an unlimited number of units. Each unit is redeemable at the option of the unitholder in accordance with the Declaration of Trust, ranks equally with all other units of the Funds and entitles the unitholder to a proportionate undivided interest in the Net Asset Value of the Funds.

On any trading day, a designated broker or a dealer may place a subscription order for an integral multiple of the prescribed number of units of the Funds. If the subscription order is accepted, the respective Fund will issue units to the designated broker and dealer within two trading days from the effective date of the subscription order. A designated broker or dealer must deliver subscription proceeds consisting of a basket of securities and cash in an amount sufficient so that the value of the basket of securities cash delivered is equal to the net asset value of the prescribed number of units.

Unitholders of each Fund may exchange the applicable prescribed number of units of the Fund on any trading day for baskets of securities and cash, subject to the minimum subscription requirement. To effect an exchange of units of the Fund, a unitholder must submit an exchange request in the form and at the location prescribed by the Fund at or before the applicable cut-off time set out in the Fund's prospectus. The exchange price will be equal to the net asset value of each prescribed number of units tendered for exchange determined at the valuation time on the effective date of the exchange request, payable by delivery of a basket of securities and cash. The units will be redeemed in the exchange. The Manager will also make available to applicable investors, dealers and the designated broker the applicable prescribed number of units to redeem of the Funds on each trading day. The effective date of an exchange request is the trading day on which the valuation time that applies to such redemption request takes place.

Upon the request of a unitholder, the Manager may, in its complete discretion, satisfy an exchange request by delivering cash only in an amount equal to the net asset value of each prescribed number of units tendered for exchange determined at the valuation time on the effective date of the exchange request, provided that the unitholder agrees to pay applicable administration fees, including associated brokerage expenses, commissions, transaction costs and other costs and expenses that the Funds incur or expect to incur in selling securities on the market to obtain the necessary cash for the exchange.

If an exchange request is not received by the applicable cut-off time, the exchange order will be effective only on the next trading day. Settlement of exchanges for baskets of securities and/or cash will generally be made by the second trading day after the effective day of the exchange request.

On any trading day, unitholders of each Fund may redeem (i) units of the Fund for cash at a redemption price per unit equal to 95% of the closing price for the units on the Toronto Stock Exchange on the effective day of the redemption, subject to a maximum redemption price per unit equal to the net asset value per unit on the effective day of redemption, less any applicable administration fee determined by the Manager, in its sole discretion, from time to time, or (ii) a prescribed number of units of the Fund or a multiple of the prescribed number of units of the Fund less any applicable administration fee determined by the Manager, in its sole discretion from time to time.

No fees or expenses are paid by unitholders to the Manager or any Fund in connection with selling units on the Toronto Stock Exchange. Such reduced redemption price causes cash flows on redemptions to not be substantially based on net asset value and thus the units are to be classified as financial liabilities in accordance with the requirements of IAS 32.

In order for cash redemption to be effective on a trading day, a cash redemption request with respect to the applicable Fund must be delivered to the Manager in the form and at the location prescribed

by the Manager at or before the applicable cut-off time set out in the Fund's prospectus Any cash redemption request received after such time will be effective only on the next trading day. Where possible, payment of the redemption price will be made by no later than the second trading day after the effective day of the redemption. The cash redemption request forms may be obtained from any registered broker or dealer. Each Fund's capital is managed in accordance with the Fund's investment objectives, policies and restrictions, as outlined in the Fund's prospectus.

For the periods ended December 31, 2022 and 2021, the following number of units were issued, reinvested and redeemed:

	December 31, 2022			December 31, 2022 December 31, 2021

#### 8. Income Taxes

Each of the Funds, except Scotia Responsible Investing Canadian Bond Index ETF, Scotia Responsible Investing Canadian Equity Index ETF, Scotia Responsible Investing International Equity Index ETF, Scotia Responsible Investing U.S. Equity Index ETF, and Scotia Emerging Markets Equity Index Tracker ETF qualifies as a mutual fund trust under the Income Tax Act (Canada) (the "Tax Act"). Scotia Responsible Investing Canadian Bond Index ETF, Scotia Responsible Investing Canadian Equity Index ETF, Scotia Responsible Investing International Equity Index ETF, Scotia Responsible Investing U.S. Equity Index ETF and Scotia Emerging Markets Equity Index Tracker ETF currently do not qualify as mutual fund trusts. Each of the Funds distributes sufficient amounts of its net investment income, including net realized capital gains (if any), less the amount retained to enable each Fund to utilize any available tax losses or, if applicable, tax refunds attributable to redemptions during the period such that no income tax will be paid or payable by the Funds. Such net investment income, including net realized capital gains are taxable in the hands of the unitholders. A Fund that does not qualify as a mutual fund trust may also be liable to pay an alternative minimum tax under the Tax Act. Currently, the Funds do not expect that they will be subject to any alternative minimum tax or other income taxes and accordingly, no Canadian income taxes are recorded in their financial statements.

Where a Fund does not qualify as a "mutual fund trust" under the Tax Act and has more than 50% of its fair market value of all of its interests held by holders that are "financial institutions", as such term is defined for purposes of the "mark-to-market property" rules in the Tax Act, the Fund will be a "financial institution" for purposes of these rules. In that event, gains and losses of the Fund on property that is "mark-to-market property" for purposes of these rules will be fully included in or deducted from income on an annual mark-to-market basis. A Fund that ceases to be a financial institution for the above purposes will be deemed to have a year-end for tax purposes at such time, and will be deemed to have disposed of certain properties at their fair market value and to have reacquired them immediately thereafter. A deemed taxation year-end will result in an unscheduled distribution of the Fund's net income, if any, at such time to unitholders so that the Fund is not liable for income tax on such amounts under Part I of the Tax Act. Scotia Responsible Investing Canadian Bond Index ETF. Scotia Responsible Investing Canadian Equity Index ETF, Scotia Responsible Investing International Equity Index ETF, Scotia Responsible Investing U.S. Equity Index ETF, and Scotia Emerging Markets Equity Index Tracker ETF were financial institutions, and ceased to be financial institutions during 2022. As at December 31, 2022, none of the Funds were or expected to be subject to the mark-to-market property rules described above.

The Funds may distribute a return of capital. A return of capital is generally not taxable to unitholders but will reduce the adjusted cost base of the units held.

To the extent that a Fund did not distribute a sufficient amount of its net income and/or net capital gains during the year, a distribution will be paid to unitholders at the end of the year or any deemed taxation year-end and such distribution may be automatically reinvested in additional units. Immediately following such reinvestment, the number of units outstanding will be consolidated so that the net asset value per unit following the distribution and reinvestment is the same as it would have been if the distribution had not been paid.

#### Losses carried forward

Capital losses can be carried forward indefinitely to reduce future net realized capital gains. Non-capital losses for income tax purposes may be carried forward up to twenty years and applied against all sources of income. Since the Funds do not record income taxes, the tax benefits of capital and non-capital losses have not been reflected in the Statements of Financial Position as a deferred income tax asset.

As of the 2022 tax year end, the Funds have capital and non-capital losses available to carry forward as presented below:

#### Withholding taxes

The Funds may incur withholding taxes imposed by certain countries on investment income and in some cases, capital gains. Such income and gains are recorded on a gross basis and the related withholding taxes are shown as a separate expense in the Statements of Comprehensive Income.

#### Uncertain income taxes

The Funds may invest in securities issued by entities which are domiciled in countries other than Canada. These foreign countries may impose taxes on capital gains realized by non-residents. In addition, the Funds may be required to determine these capital gains taxes on a self-assessment basis; therefore, such taxes may not be deducted by the Funds' broker on a "withholding" basis.

If applicable, the Funds have applied the most likely amount method in measuring uncertain tax liabilities and related interest and penalties with respect to foreign capital gains taxes. The uncertain tax liabilities, if any, are recorded by the Funds in the Statements of Financial Position as "Provision for uncertain tax" and in the Statements of Comprehensive Income as "Foreign withholding taxes/tax reclaims". While any such provision represents the Manager's best estimate, the estimated value could differ significantly from the amount ultimately payable.

## 9. Client Brokerage Commissions

Client brokerage commissions are arrangements pursuant to which products or services, other than the execution of portfolio securities transactions, are obtained by a portfolio advisor from or through a broker-dealer in exchange for directing client securities transactions to the broker-dealer. There were no ascertainable client brokerage commissions paid in connection with investment portfolio transactions for the period ended December 31, 2022 and 2021.

#### 10. Related Party Transactions

The Manager is a wholly-owned subsidiary of The Bank of Nova Scotia.

The Manager, on behalf of the Funds, may enter into transactions or arrangements with other members of Scotiabank or certain other companies that are related or connected to the Manager (each a "related party"). All transactions between the Funds and the related parties are in the normal course of business.

- (a) The Manager earns management fees for acting as trustee and/or manager of the Funds as detailed in note 5. The management fees are disclosed in separate lines in the Statements of Comprehensive Income.
- (b) Scotiabank owns, directly or indirectly, 100% of Scotia Capital Inc. (which includes ScotiaMcLeod and Scotia iTRADE), an investment dealer. Decisions about the purchase and sale of each Fund's portfolio securities are made by appointed Portfolio Managers of each Fund. Provided that the pricing, service and other terms are comparable to those offered by other dealers, a portion of the portfolio transactions may be executed for the Funds, by a related party to the Funds. In such cases, the related party will receive commissions from the Funds. There were no brokerage fees paid to related parties for the periods ended December 31, 2022 and 2021.
- (c) Scotia Capital Inc., an affiliate of the Manager, is a designated broker for the Funds. As a designated broker, Scotia Capital Inc. may subscribe for or be issued units of the Funds by the Manager from time to time. The Funds did not incur or pay for any related costs to Scotia Capital Inc. for the period ended June 30, 2022, for its service as a designated broker.
- (d) The Manager has received approval from the Independent Review Committee for the Funds to purchase securities of related parties.

#### 11. Securities Lending

Funds may enter into securities lending transactions under a securities lending program with State Street Bank and Trust Company. These transactions involve the temporary exchange of securities for collateral with a commitment to return the same securities to the Fund on a future date. In accordance with security regulations, the Funds receive minimum collateral of 102%. Collateral is received in the form of debt obligations of the Government of Canada, a Canadian provincial government, the government of the United States of America, certain financial institutions or other qualified securities, and is not included in the Schedule of Investment Portfolio. The Funds do not receive cash collateral from any securities lending transactions. The aggregate market value of all securities loaned by a Fund cannot exceed 50% of the Net Assets of the Fund. The fair value of the securities lent and collateral held is determined on a daily basis. The securities lending arrangement can be terminated by the borrower, the securities lending agent or the Fund at any time.

The income earned from these securities lending transactions is included as part of "Securities lending" in the Statements of Comprehensive Income, if applicable.

The aggregate market value of the securities on loan and the collateral received by the Funds as at December 31, 2022 and 2021 is presented below along with the income earned for the period ended December 31, 2022 and 2021.

### **Opinion**

We have audited the financial statements of the Funds, which comprise:

- the statements of financial position as at December 31, 2022
- the statements of comprehensive income for the periods then ended as indicated in note 1
- the statements of changes in net assets attributable to holders of redeemable units for the periods then ended as indicated in note 1
- statements of cash flows for the periods then ended as indicated in note 1
- and notes to the financial statements, including a summary of significant accounting policies

(Hereinafter referred to as the "financial statements").

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Funds as at December 31, 2022, and their financial performance and their cash flows for the periods then ended as indicated in note 1 in accordance with International Financial Reporting Standards (IFRS).

## **Basis for Opinion**

We conducted our audits in accordance with Canadian generally accepted auditing standards. Our responsibilities under those standards are further described in the "Auditor's Responsibilities for the Audit of the Financial Statements" section of our auditor's report.

We are independent of the Funds in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada and we have fulfilled our other ethical responsibilities in accordance with these requirements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

## Other Matter - Comparative Information

The financial statements for the periods ended December 31, 2021 were audited by another auditor who expressed an unmodified opinion on those financial statements on March 24, 2022.

#### Other Information

Management is responsible for the other information. Other information comprises:

 the information included in the Annual Management Reports of Fund Performance of the Funds.

Our opinion on the financial statements does not cover the other information and we do not and will not express any form of assurance conclusion thereon.

In connection with our audits of the financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the financial statements, or our knowledge obtained in the audits and remain alert for indications that the other information appears to be materially misstated.

We obtained the information included in the Annual Management Reports of Fund Performance of the Funds filed with the relevant Canadian Securities Commissions as at the date of this auditor's report. If, based on the work we have performed on this other information, we conclude that there is a material misstatement of this other information, we are required to report that fact in the auditor's report.

We have nothing to report in this regard.

# Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with International Financial Reporting Standards (IFRS), and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Funds' ability to continue as a going concern, disclosing as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Funds or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the financial reporting process of the Funds.

# Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion.

Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with Canadian generally accepted auditing standards will always detect a material misstatement when it exists.

Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the financial statements.

As part of an audit in accordance with Canadian generally accepted auditing standards, we exercise professional judgment and maintain professional skepticism throughout the audit.

#### We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion.
  - The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audits in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the internal control.

### Page 4

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Funds' ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Funds to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Communicate with those charged with governance regarding, among other
  matters, the planned scope and timing of the audits and significant audit findings,
  including any significant deficiencies in internal control that we identify during our
  audits.
- Provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.
